**MONTGOMERY COLLEGE**
Office of the President

April 7, 2014

**MEMORANDUM**

To: Montgomery College Colleagues

From: Dr. DeRionne P. Pollard, President

Subject: Appointment of Senior Vice President for Administrative and Fiscal Services

The functions of the administrative and fiscal services division provide the backbone of our College's operations, covering such offices as Auxiliary Services; Budget; Facilities and Security; Finance; Human Resources, Development, and Engagement; Information Technology; and Procurement. We depend on these offices every day in order to realize our mission of empowering students to change their lives.

The senior vice president for administrative and fiscal services plays a key role in leading and directing the many offices of administrative and fiscal services. As a member of my senior leadership team and an important adviser, strong and capable leadership in this role is critical. This is why today I am appointing Dr. Janet E. Wormack as our permanent senior vice president for administrative and fiscal services. Dr. Wormack has been ably serving in the role of interim senior vice president since last year and previously held the position of associate senior vice president for administrative and fiscal services for two years. An experienced Montgomery College administrator, Dr. Wormack knows the division well, having 14 years of progressively responsible experience. Her previous roles include director of procurement as well as interim chief finance officer.

After earning her bachelor's degree in business administration at Arizona State University, Dr. Wormack earned her master's degree in public administration at Bowie State University, and then her doctorate in higher education administration at Morgan State University. Before coming to Montgomery College in 1999, Dr. Wormack served as chief of procurement operations for Montgomery County Government.

Please join me in welcoming Dr. Janet E. Wormack to her new role. I wish her and the entire administrative and fiscal services division continued success in its outstanding service to the College and our students.
