MONTGOMERY COLLEGE

PROJECT MANAGEMENT

Montgomery College has been approved as an Authorized Training Partner (ATP) by the Project Management Institute (PMI).

Our program offers students three options to pursue in project management that will engage you with our expert and experienced faculty, provide affordable and flexible courses, all while being tailored to help you become a better project manager.

PMP® Exam Preparation

We are now offering the *NEW* Project Management Professional (PMP)® exam preparation from PMI. Montgomery College is an Authorized Training Partner (ATP) by the Project Management Institute (PMI) to provide industry leading preparation towards the PMP® certification exam. Training with an Authorized Partner is the only way to ensure you are learning PMI-developed PMP® exam prep material and ensure you are learning from a PMI-vetted instructor.

NEW Montgomery College Project Management Certificate Program

The Montgomery College Project Management Certificate is designed for students looking to enter a new career field, expand/hone their project management skills with the latest practices, or those that want to gain new skills. This program will help students develop the technical and interpersonal skills needed to successfully manage projects on time, on budget, and within scope utilizing both predictive (traditional) and agile methodologies.

Students must complete and pass the program within two (2) calendar years of starting the program in order to be eligible for the *Montgomery College Project Management Certificate*

CAPM® Exam Preparation

The Certified Associate in Project Management (CAPM)® certification is designed for individuals looking to get into project management, entry level project managers or those with less than 3 years' of project management experience. A CAPM® Certification can help you move forward in a career in project management and get you on the path towards potentially obtaining the PMP®.

Our courses provide you opportunities to earn PDU's and PDC's as a current credential holder! Our courses may be offered as either synchronous or asynchronous to fit your schedule.

Montgomery College Project Management Certificate Program Details

Students must complete and pass the program within two (2) calendar years of starting the program in order to be eligible for the *Montgomery College Project Management Certificate.*

1. **PM101: Methodology and Overview**
2. **PM102: Practical Application of Predictive (Traditional) Project Management**
3. **PM103: Practical Application of Agile Project Management**
4. **PM104: Project Management Leadership**
5. **Electives: Students must complete two (2) elective courses**

PM101: Methodology and Overview
Course: PMC036   15 Hours

This course will introduce you to the two major methodologies utilized for managing projects- the predictive (traditional) approach and the agile approach. This overview will cover the terms and concepts of both approaches as well as giving a high level overview of how each methodology conducts projects. Having this broad understanding will provide participants with a clear understanding of the different ways projects can be accomplished. Participants will use hands on exercises and a course exam to demonstrate understanding as well as to compare the benefits of each methodology.

PM102: Practical Application of Predictive (Traditional) Project Management
Course: PMC037   28 Hours

This course will provide you with a comprehensive review of the predictive (traditional) approach to project management. This will cover this methodology of managing projects from the initiation to the closing of the project. Topics covered include defining the scope, creating a schedule, preparing for risks, determining communications as well as managing change, building project teams and closing a project. By the end of this class, you will have created the basic project documents utilized by this methodology through the use of a case study and will be prepared to apply these to your own projects.

PM103: Practical Application of Agile Project Management
Course: PMC038   28 Hours

Project Management practitioners are increasingly embracing agile as a technique for managing successful projects. It is a topic of growing importance in project management. Whether you are a PMP® credential holder or an individual working on agile project team, this course will provide you with a comprehensive review of the agile approach. Understand the values and principles of agile and identify methodologies of agile project management with a focus on the scrum method.

PM104: Project Management Leadership
Course: PMC042   8 Hours

As a project management practitioner, your success and effectiveness is determined by the quality of your professional relationships. In this course you will learn and practice the skills necessary to build and maintain positive relationships with your team members, stakeholders, and customers. Topics include interpersonal communications, active listening, conflict management, influencing, trust building, decision-making, and constructive feedback.
