The Critical Issue:

2010 Governance Assessment Outcome Identifies Need for Change

Montgomery College's governance process could not be defined as shared and participatory. There were:

- No Montgomery College Board of Trustees governance policies in place.
- No nonbargaining staff represented by the Staff Senate.
- No part-time staff and bargaining unit staff represented by the Academic Assembly.
- · No governance roles for students.

Full representation and input for all college stakeholders was lacking.

Issue Addressed: Board Policy and New Process

- Task force created and task force recommended a new participatory governance process.
- New participatory governance systems tripled the involvement of College stakeholders.
- Involvement increased from 20 faculty members to more than 150 College employees and students.

Our Board Policy

- MC's participatory governance system is based on board policy established in 2010.
- The board's primary responsibility is to govern MC. The board authorized the College's president to develop procedures to implement the policy.
- "Effective governance is achieved in the spirit of cooperation, collaboration, civility, respect, and collegiality and involves all levels of the college including students."

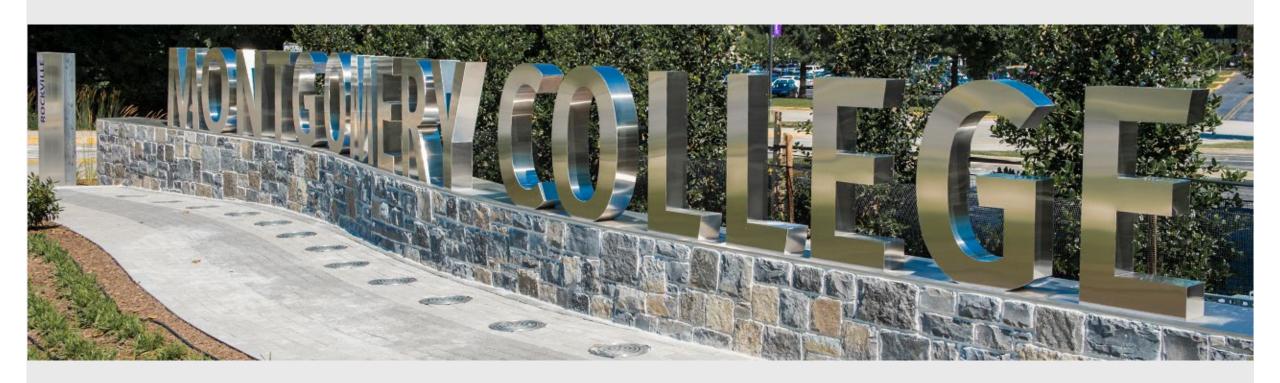

MC Participatory Governance

"Participatory governance is a method of decision-making in which collegewide policies, procedures, and practices are recommended to the president of the College and the Board of Trustees."

Membership Expectations

Participatory Governance Guidelines

- The constitution, handbook, and by-laws provide for the council membership and governance procedures.
- Each council has a chair, vice-chair, and a secretary.
- Most council members are elected to a two-year team.
 - Students are elected for a one-year term.
 - Designated resource person appointed to select councils.
- Councils are populated with all positions from the College.
- Persons can self-nominate or be nominated by others.

Council Meeting Guidelines

- Come to all meetings prepared to conduct business.
- Have an agenda and minutes for each meeting.
- Follow Robert's Rule of Order.
- Allow time for constituency concerns.
- Provide a chair's report.
- Allow time for new and old business.
- Use basic Zoom guidelines.

Faculty Council Zoom Meeting

How does Governance Engage with the College?

• Where is the intersection?

Creating a Culture of Engagement

With the Board of Trustees

Holds conversations with constituent councils.

With the president

- Attends College Council meetings.
- Invited to attend various council meetings.

With senior leadership

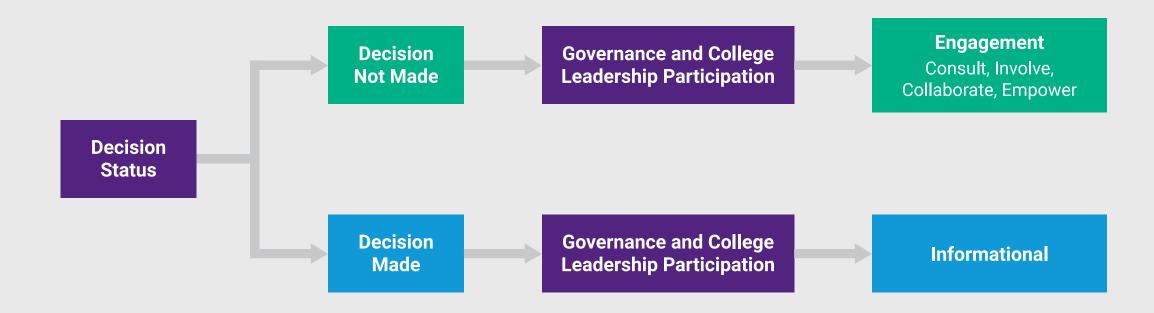

- Each senior leader serves as liaison to various councils.
- Governance representation invited to leadership meetings.

With College community

- Student panels
- Zoom informational session

Levels of Engagement: Governance and College Leadership

Role of Governance

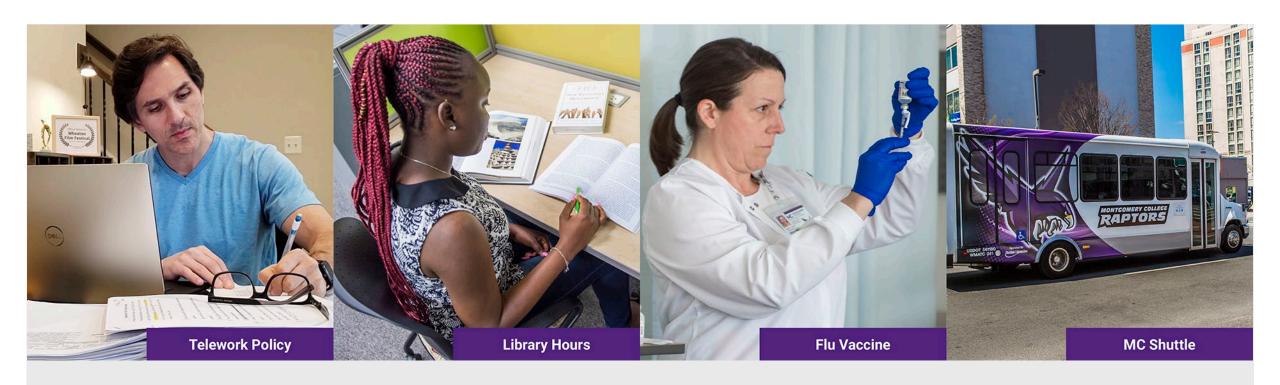

Governance councils make recommendations, provide feedback, disseminate information, and offer input.

Governance councils do not implement or manage college work. College procedures that involve contractual, governmental or legal requirements are approved and executed by the College's president with oversight by the Board of Trustees. Examples include collective bargaining, legal rights, and federal and state mandates.

Scope of Governance

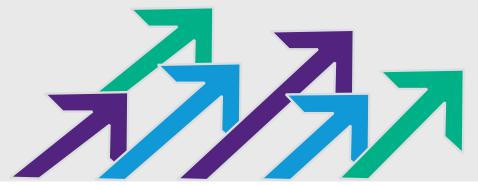

Governance issues should have group impact

- Individual concerns may impact a large group.
- Individual concerns may be addressed by existing College resources.

Pathways to Recommendations/Actions

- How do/can constituents use governance?
- An issue needs attention (constituent concern).
- I (we) have a great idea (advocate for a solution).
- How can College leaders utilize governance participation to support decision-making?
- Do you want to inform or engage stakeholders?
- If you want to engage, what level of participation are you willing to accept?
