Princeton Institute for Science and Technology of Materials Princeton Center for Complex Materials Research Experience for Undergraduates

<http://www.princeton.edu/~pccm/outreach/reu.htm>

The Princeton Institute for the Science and Technology of Materials (PRISM) and the NSF funded Princeton Center for Complex Materials (PCCM) are sponsoring research opportunities for undergraduate students in Materials Science and Engineering during the summer of 2010.

Right: Ms. Katherine Carrasquillo (University of Puerto Rico - Humacao) worked on Modifying Chalcogenide Using Gold Nanoparticles

Above: Mrs. Wandee Brennan (Ventura College) worked on Coatings for delayed-release in basic solution

- Research experience at the forefront of materials science and engineering
- Program runs from June 7 to August 13, 2010
- Participants will receive a stipend of \$500 per week
- Low-cost housing is available
- Short courses, lectures, and social events, both on and off Princeton's campus, throughout the nine week REU program
- Easy access by train to New York City and Philadelphia

<http://www.princeton.edu/~pccm/outreach/reu.htm>

The deadline for applications is March 1, 2010

On-line Applications Preferred

Mailing Address:

Shannon Greco

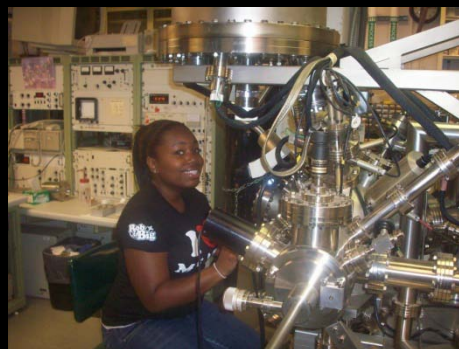

Princeton Center for Complex Materials

Princeton University

Attn: REU Program Administrator

70 Prospect Ave., Bowen Hall

Princeton, NJ 08540-5211

Above: Ms. Danielle Haynes (Clark Atlanta University) worked on Surface Science Investigation of Corrosion Processes
