

# MATHEMATICS, SCIENCE ASSOCIATE OF SCIENCE: 412B

Total Credits: 60 Catalog Edition: 2017-2018

# **Program Description**

The mathematics track is a transfer program that provides the first two years of courses necessary for a four-year baccalaureate degree in mathematics.

# **Program Outcomes**

Upon completion of this program a student will be able to:

- Effectively communicate the concepts of single and multivariable calculus, differential equations, and linear algebra using appropriate mathematical language.
- Apply mathematical approaches from single and/or multivariable calculus, differential equations, and linear algebra to analyze and solve problems in mathematics and other disciplines.
- Appropriately use current mathematical software, such as Matlab or MAPLE, for tasks in multivariable calculus, differential equations, and/or linear algebra.

MATHEMATICS, SCIENCE ASSOCIATE OF SCIENCE: 412B

## MATHEMATICS, SCIENCE ASSOCIATE OF SCIENCE: 412B

# **Suggested Course Sequence**

A suggested course sequence for full-time students follows. All students should review this advising worksheet and consult an advisor. Visit <a href="https://cms.montgomerycollege.edu/mathematics/programsandadvising/">https://cms.montgomerycollege.edu/mathematics/programsandadvising/</a> for more information on transfer requirements and suggested course sequences for specific universities and colleges.

#### **First Semester**

- ENGL 101 Introduction to College Writing 3 semester hours \*
- MATH 181 Calculus I 4 semester hours (MATF)
- Arts distribution 3 semester hours (ARTD)
- Behavioral and social sciences distribution 3 semester hours (BSSD) \*\*
- Humanities distribution 3 semester hours (HUMD)

#### **Second Semester**

- MATH 182 Calculus II
   4 semester hours
- Track electives 4 semester hours †
- English foundation 3 semester hours (ENGF)
- Natural sciences distribution with lab 4 semester hours (NSLD) ‡

#### **Third Semester**

- MATH 117 Elements of Statistics
   OR COMM 108 Foundations of Human
   Communication
   OR COMM 112 Business and Professional
   Speech Communication
   OR General education elective
   3 semester hours (GEEL)
- MATH 280 Multivariable Calculus 4 semester hours
- Natural sciences distribution with lab 4 semester hours (NSLD) ‡
- Track electives 4 semester hours †

#### **Fourth Semester**

Note: Apply for the College's graduation after registering for fourth semester courses.

- MATH 282 Differential Equations 3 semester hours
- MATH 284 Linear Algebra
   4 semester hours
- Track electives 4 semester hours †
- Behavioral and social sciences distribution
   3 semester hours (BSSD) \*\*

#### **Total Credit Hours: 60**

- \* ENGL 101/ENGL 101A, if needed for ENGL 102/ENGL 103, or program elective.
- \*\* Behavioral and Social Science Distribution (BSSD) courses must come from different disciplines.
- ‡ Students are strongly encouraged to take two consecutive lab sciences courses.
- † Students should choose electives carefully based on the requirements of their intended transfer institution. Students are encouraged to take a two-semester sequence of courses that fulfills their transfer goals. Track Electives include: ACCT 221, ACCT 222, BIOL 150, BIOL 151, BIOL 210, CHEM 131, CHEM 132, CHEM 203, CHEM 204, CMSC 140, CMSC 203, COMM 108, ECON 201, ECON 202, ENEE 140, ENES 102, ENES 220, ENES 221, ENES 240, MATH 165, PHYS 161, PHYS 233, PHYS 234, PHYS 262, or PHYS 263. Students must take at least one 200 level track elective.

## **Related Careers**

As described by the <u>University of Houston's Math</u> <u>Department</u>, Mathematics prepares you for a career in a diverse range of areas, and as science and technology become integrated into more and more aspects of our lives, employers are clamoring for employees with mathematical skills and problemsolving abilities. Some careers that a math major is especially good preparation for are the following:

Jobs in Industry or the Private Sector. There are numerous jobs in the private sector that desperately need math majors. These areas include: Actuarial Science, Computer Analyst or programmer, Economist, Engineering Analyst, Information Scientist, Marketing Research Analyst, Mathematician, Meteorologist, Numeral Analyst, Operations Research, Statistician, and Systems Analyst.

Government Jobs. There are a variety of government positions that require a mathematics degree. In particular, the National Security Agency (NSA) is the largest employer of mathematicians whose skills are useful to help create and break codes, analyze intelligence data, and perform signal analysis. They hire people with a variety of technical degrees at all levels (undergraduate and graduate).

Mathematics Teacher, Mathematics Professor, or Professional Mathematician. These are perhaps the most obvious careers that a math major can pursue. If you want to be a mathematics professor or a professional mathematician, you will need to go to graduate school in mathematics.
