Counting Meetings in Relation to Final Exam Week

For all classes meeting less than a full semester (except POTs 3) all meeting minutes will be calculated counting finals week as one class meeting.

For **Part of Term 3 classes that end during final exam week (with the exception of distance learning classes, blended classes, and classes with only one contact hour); count all the times the class meets up until final exam week and adjust minutes to that number of meetings. The classes will actually meet during final exam week but that week is not counted in the instructional time calculation.
