Project Name: “Promoting Student Success – CCSSE, Best Practices & Engaging Ideas: A Mini-Conference”

Project Director: Dr. Avis Jones-Petlane

Project Starting and Ending Date: January 19, 2007 – June 2007

Brief description of the project:

The ‘mini-conference’ will be a forum for the Montgomery College community to learn more about the Community College Survey of Student Engagement (CCSSE), discuss strategies for dealing with the Survey results, and allow faculty, staff, and administrators a chance to share their best practices and ideas to enhance student achievement, satisfaction, and retention.

State fundamental need or concern addressed in this project.

This conference will not only give the College community a chance to learn more about the CCSSE and MC results, but it will also provide a platform for college-wide input into the feedback process for survey results and college best practices which impact survey results.

List the project's core goals and/or objectives.

1. To disseminate information on the CCSSE
2. To provide a forum for college-wide input on the CCSSE results
3. To give faculty, staff, and administrators an opportunity to present their best practices and ideas for enhancing student achievement, satisfaction, and retention.

Who will benefit from this project?

The students at Montgomery College stand to benefit most from this mini- conference. The College can focus on the issues which impact students' notions of engagement and satisfaction. Faculty will get the opportunity to learn about and share 'best practices' for enhancing student achievement, and also have the opportunity to hear ideas from administrators and staff.
