

PROJECT DATA

Note: This form is for **APPROVED GRANTS** only! A Project Data form is a requirement for the grants. The information provided will be posted on the Learning College website.

Directions: Fill out the form and email it to anne.holte@montgomerycollege.edu.

Project Name: Coming Together @ the Library

Project Director: Kathy Swanson and Diane Cockrell

Project Starting and Ending Date: January 22, 2008-October 2008

Brief description of the project: To familiarize our International Students with what resources and services are available in an academic library.

State fundamental need or concern addressed in this project: A large number of International Students either never had the opportunity to experience visiting a library or utilize the resources and/or services.

List the project's core goals and/or objectives.

We wish to open more doors for these students to better understand how a library is organized, how library materials circulate, and how to conduct legitimate research without the need for internet. They will learn critical thinking skills in ascertaining the validity of information found via the internet versus that found via our electronic resources.

Who will benefit from this project?

The International Students will benefit most from this outreach program. This will further their understanding of what role a library plays in their academic AND daily lives by offering them 'endless possibilities'.
