

130 WORKSHEET (3.6)

Name _____

1. Compute 54×28 using the partial products algorithm. Show all steps!!

2. Use base-ten blocks to find 32×4 . Sketch your model.

3. Use base-ten blocks to find $62 \div 4$. Sketch your model.

4. Use the repeated subtraction algorithm to compute $690 \div 15$.

5. Make a square grid model for 34×23 .
