

Landscape Technology Program

Montgomery College - Germantown Campus

SPRING CLASSES 2010

LN 101 Introduction to Landscape Technology

2 semester hours

Gain a broad overview of the Green Industry. Guest speakers present a general survey of the major fields of the industry, including potential job opportunities. Lecture topics include basic concepts in plant growth and development, plant identification, invasive species, composting, and propagation.

Class meets Monday, 7:30 - 9:20 p.m.

CRN 31013

LN 109 Plant Materials II*

3 semester hours

Learn how to identify and properly use evergreen trees, shrubs, vines, and groundcovers in both residential and commercial landscape situations. Plant characteristics, such as seasonal interest and habit, are stressed so that appropriate plant selections can be made for any landscape situation.

Monday section meets, 1:00 – 4:30 p.m.

Brookside Gardens - CRN 31247, CRN 31248 Lab

Wednesday section meets, 6:00 – 9:30 p.m.

Germantown Campus - CRN 31015 CRN 31014 Lab

LN 118 Landscape Management*, **

3 semester hours

Hone landscape management skills by an in-depth study of proper planting and pruning techniques. Learn how to properly evaluate soil sites and conditions. Select appropriate amendments and develop fertilization programs.

Class meets Tuesday, 6:00 - 9:30 p.m.

CRN 31017, CRN 31016

LN 120 Landscape Graphics

3 semester hours

Develop the basic skills necessary to prepare planting designs and construction drawings for client presentations, including colored site plans and 3-dimensional drawings.

Monday, 9:00 a.m. - 12:30 p.m.

Brookside Gardens - CRN 34610, CRN 34611 Lab

LN 130 Landscape Design*

3 semester hours

Explore the basic principles of landscape architecture and the process by which designs and graphics are developed for formal and informal landscapes. Students will learn to prepare and present landscape designs.

Thursday 6:00 – 9:30 p.m.

Germantown Campus - CRN 33238, CRN 33239 Lab

LN 150 Introduction to Arboriculture

1 semester hour

This hands-on course (all lab) will focus on how to ascend and descend safely in large trees. Each class will have one or more members from the Maryland Arborist Association serving as teaching assistants.

LATE START, Meets 03/15/10-03/19/10; 9:00 a.m. to 3:15 p.m.

CRN 34597

New

LN 209 Interior and Greenhouse Plants*, **

3 semester hours

Discover the basic skills necessary to design, equip and manage a greenhouse, and learn methods of plant propagation and production for annuals and perennials and other greenhouse plants.

Class meets Thursday, 6:00 - 9:20 p.m.

CRN 34290, CRN 34291 Lab

LN 280 Landscape Technology Internship

2 semester hours

With guidance from an instructor, design an individual industry work experience. *Consent of department.*

CRN 32622

* LN 109, LN 118, LN 120, 130, LN 209: Includes selected Saturday Field trip(s).

**LN 118 and LN 209, and other select courses in the Program, have been approved by the Maryland Department of Agriculture to prepare Green Industry professionals for pesticide application certification in Category III and Core.
