Response to Constituent Concerns

Terrence Evelyn visited the council to address two constituent concerns: signage on campus and electric vehicle charging stations in our campus garages and surface lots.

- There are no immediate plans to change the signage throughout the campus. However, outdated directories can be changed manually.
- Currently electric vehicle charging stations the garages would have to be retrofitted into the current spaces and right now it is not in the budget. Terrence plans to continue the conversation with Mark Pace and will report back next year.
