7. REPORTS

A. President’s Report to the Board

Dr. Pollard provided comments on the Common Student Experience Task Force, the Completion Agenda, the College strategic plan, and the restructuring of the Student Services unit. Dr. Pollard presented two related questions to the Trustees:

(1) What resolutions do you believe the College needs to embrace in order to boost student completion rates?
(2) How do you think the College can best achieve these resolutions, given the College challenges that were shared in my December report?

Trustees’ responses, suggestions, and recommendations focused on the needs: to capture students’ goals along with the other data they provide when they initially enroll; to follow-up with an exit interview at the conclusion of their studies to determine if they accomplished their goals; and to do a better job of guiding students through the process of attending college. Additional responses revealed the need for students to establish a continuous relationship with a counselor during their time at the College; the use of student ambassadors may help in connecting new students; the need to learn the cognitive and non-cognitive attributes of students is necessary in order to help them; the need to customize support based on the kind of student; the need to develop courses with urgency is a critical variable; and the need to talk about students who do not complete or achieve their goals while at the College.

B. Chair’s Report

Chairman Kaufman reported on the Maryland Association of Community Colleges (MACC) Trustee Leadership Conference and legislative reception, which he attended last week. In addition, he highlighted MACC’s 2012 legislative agenda and noted the need for community colleges to raise their voices.

Dr. Beverly Walker-Griffiea began her report with a discussion on the restructuring of the Student Services unit at the College. Dr. Walker-Griffiea noted that the foundation for the
Restructuring will have a focus on certain servant leadership tenets to include a good understanding of the organizational identity, mission, vision, and environment, and being good stewards of organizational resources – human, financial, and physical.

Dr. Walker-Griffea reviewed the work, membership, scheduled activities, and timeline of the task group that was established to develop the “truths” of a common Montgomery College student experience, as they will guide the service to students from their first connection with the College through the completion of their desired goals. The main focus of the report focused on the reinvigoration of the College athletics program and how the National Junior College Athletics Association rule change affected the College’s Title IX compliance. Dr. Walker-Griffea reviewed the intercollegiate sports as well as the intramural and club sports that will be on each campus. She also discussed the establishment of one set of College colors and one mascot.
