6. REPORTS

A. President’s Report

Dr. Pollard continued her report on Guided Pathways. As related to the book, *Redesigning America’s Community Colleges: A Clearer Path to Student Success*, she took a look at engineering at Montgomery College. She noted that the MC engineering program is the largest at any community college in the nation with 1,500 students enrolled. It is the third largest major at the College and has 11 different engineering specialties available with mechanical, electrical, and computer engineering being the three most popular.

The program integrates key facets of technology, business, and leadership into the education of future engineers while also preparing them for transfer and, ultimately, for employment.

Dr. Pollard noted that best practices in several areas have allowed the program to double its enrollment over the last eight years while maintaining the standards that have won it national acclaim.

The report looked at how five aspects of the program have supported its success: highly trained faculty with links to industry, diligent advising, partnerships, extra-curricular opportunities, and an ambitious approach to funding for students and facilities.

Dr. Pollard presented a brief video about the engineering program.

Trustees commented on the wonderful program and the very organized list of courses, and asked for clarification on the transfer numbers and how the video would be used in the future.

Chair Smith thanked Dr. Pollard for her report.

B. Chair’s Report

Chair Smith commented on the constituent conversation with College Council held earlier in the evening. Chair Smith invited Trustees to report on committee meetings and activities.

Second Vice Chair Aparicio Blackwell reported on the Academic, Student Support, and Workforce Committee, which met earlier in the afternoon. She noted that the committee heard information on College enrollment and student groups. Second Vice Chair Aparicio Blackwell reported on the MC Foundation board meeting and noted that some highlights of meeting focused on raising funds for scholarships, the golf tournament, and the annual fundraising goal.

Trustee Rosales reported on the Alumni Association meeting that he attended on February 4. He noted that most of the meeting discussion focused on county matters and funding for the College.
Trustee Wu reported on his attendance at the ACCT National Legislative Summit (NLS) and the work of the Diversity Committee.

Trustee Hoffman reported that he is continuing to explore the issue that is important to him, which is living near your work.

Trustee Levine reported that he has been on a very pleasant vacation.

First Vice Chair Knapp reported on his attendance at the February 8 ribbon cutting and building dedication ceremony for the National Cybersecurity Center of Excellence’s new facility in Rockville.

Trustee Hydorn reported that he has been ill.

Trustee Levey reported on his attendance at the NLS, a Leadership Montgomery meeting, a meeting with the mayor of Rockville, and a visit to Annapolis.

Chair Smith announced the upcoming joint boards meeting with USG Board of Advisors and the MCPS Board of Education on February 29.

Chair Smith reported that the Board just had a thorough discussion on a white paper that Dr. Pollard presented to them outlining a case for a chief diversity officer position at Montgomery College. Chair Smith noted that this would be a step forward for the College to move toward cultural inclusion and a way to examine diversity research models.

Second Vice Chair Aparicio Blackwell noted the importance of the position and how critical the diversity topic is for the College. The College must begin to formalize it as there is currently no safe place in the community to discuss diversity, and placing it in the higher education environment is a very good option.

Trustee Hydorn expressed the need to have a leadership position that focuses on diversity and thanked Dr. Pollard for bringing the paper forward.

First Vice Chair Knapp noted that this was a very timely conversation to have as there are elements and visages of racism at colleges. He noted that the country doesn’t talk about race well because it isn’t a pleasant topic.

Dr. Pollard thanked the Board for its feedback on the diversity white paper. She noted that the College must acknowledge its own concerns. We will need courage, equity, and equitable outcomes. Hiring a chief diversity officer will be an opportunity to engage employees at all levels, demonstrate to the College community that the president is listening, and demonstrate how the College acknowledges racism.
