6. REPORTS

   A. President’s Report

Dr. Wormack delivered the President’s Report on Dr. Pollard’s behalf, recapping several developments that had taken place since the last board meeting.

She announced that the county council made its final decisions on the operating budget in late May and reminded the board that it had requested an increase of $7.4 million, all of which was to go to support salaries and benefits. Ultimately, the county executive and the county council approved a total increase of $5.2 million, which was $3.2 million over the county executive’s initial recommendation. She expressed her gratitude to the county executive and county council for their continued support of Montgomery College.

Dr. Wormack reported that the county council has requested a report on Montgomery College metrics. Over the year, the Office of Legislative Oversight researched key indicators of College activities that can be used in the future. She noted that the College already has something similar at the state level—the Performance Accountability Report—but this marks a new development in the county and indicates an interest in more data-based decision making.

Dr. Wormack thanked all the trustees who participated in commencement and thanked the Office of Special Events staff for all their work and planning. This year’s event celebrated the achievement of nearly 2,800 students who earned a degree or certificate.

Dr. Wormack congratulated Senior Vice President for Academic Affairs Sanjay Rai for being named the Leader of the Year at Leadership Montgomery’s annual Celebration of Leadership event.

She reported that the final moves to the new Central Services offices would take place during the week of the Board’s June meeting, noting that the meeting tonight is the last and final board meeting ever to be held in this location. Dr. Wormack expressed gratitude to the Montgomery College Foundation for its leadership in acquiring and renovating the Central Services Building for the College.

In closing, Dr. Wormack mentioned other accomplishments made during the year, including work on student success in our first year as a member of Achieving the Dream, progress on completing our Self-Study for reaccreditation, national student recognitions, launch of a new website, introduction of the new College branding and tagline, opening of the Science Center West Building on the Rockville Campus, opening of a parking garage on the
Rockville Campus, ramping up to launch Workday as our enterprise system, and starting the installation of a new phone system, among many others.

B. Chair’s Report

Chair Suggs Smith shared information about the meeting held with the Montgomery County Board of Education earlier in the evening. The two boards discussed two major collaborative efforts: dual enrollment and alternate placement.

She thanked the trustees for their advocacy efforts in the past year, adding that their engagement has meant so much for Montgomery College students.

Finally, she commented that the board held a retreat on June 9, 2017, where it continued its work on “Envisioning the Future.” The three-phase process began last fall, with senior vice presidents and the chief of staff presenting strengths, weaknesses, opportunities and threats (SWOTs) in functional areas of interest to the College. In the spring semester, the SWOTs were considered in the board’s committees and again at the mid-year retreat, where board members developed a consensus about the major concerns and next steps. The work carried out in the past year will continue to inform the board and president’s work and as well as the next strategic plan to follow Montgomery College 2020.

Board Chair Suggs Smith asked the other trustees for reports of their recent activities.

Trustee Hydorn reported that he attended the Leadership Montgomery annual celebration and Trustee Wu reported on attending the Montgomery County Chamber of Commerce annual dinner, where Dr. Pollard accepted the Partner of the Year Award.
