Dr. Pollard provided her report on the concept of guided pathways. She noted that the book published by Thomas Bailey, the director of the Community College Research Center at Columbia University, has captured the national dialogue about community colleges this year: *Redesigning America’s Community Colleges: A Clearer Path to Student Success*. She noted that all College administrators read the book over the summer along with many others, and now the Trustees have the book as well. It was distributed to them at the retreat.
