6. REPORTS

A. President's Report

Dr. Pollard continued her focus on the theme of guided pathways as developed in the recently published book, *Redesigning America’s Community Colleges: A Clearer Path to Student Success*. Her written report to the Board examined the manner by which students come into the College and noted that entering any college is more complex than we often realize. Dr. Pollard reported that some very important decisions made by students in their first steps of a college career include how to obtain financial aid, which courses to register for, and what major to select. These decisions can make or break a college career, but supporting students as they make these decisions can make the critical difference in their long-term success. Dr. Pollard noted that enrolling at Montgomery College has four components: outreach, application, advising, and registration. Dr. Pollard shared a video with the board about how students come into Montgomery College.

Dr. Pollard highlighted College Bulletin stories that looked at the creativity and innovation that faculty, staff, and students bring to the institution.

Chair Smith thanked Dr. Pollard for her report.

Trustees thanked Dr. Pollard for her report and their comments focused on welcome centers, career coaches, incentives for faculty, and the counseling approach used for students with the utilization of Starfish.

B. Chair’s Report

Trustee Smith commented on the constituent conversation with the Faculty Council, and thanked the trustees who attended the 2015 ACCT Leadership Congress. Trustee Smith asked trustees to report on board committee meetings and their activities involving the College for the last month.
