Chairman Kaufman thanked everyone for what they have done for the College and the nation. Dr. Pollard noted that there will be a celebration on November 29, at 4:00 p.m. to honor the students.
Dr. Pollard’s report focused on service learning and she presented two questions to the Trustees:

(1) Have you had a personal experience with service learning in your educational experience?  
(2) What do you see as the broader benefits of service learning, beyond fulfilling our mission statement?

Trustees’ responses ranged from getting involved with community service and service learning as children with their parents as role models; having it as part of a required curriculum; seeing a need in the community; to establishing community organizations to help others. Trustees expressed the need for having a service learning experience for college students at least one semester and it should be an academic necessity.
