7. REPORTS

A. Student Recognitions

Dr. Pollard and the Board recognized the students who advocated on behalf of the College at Student Advocacy Day in Annapolis. At this event, 13 Montgomery College students spoke to legislators and shared their personal stories of how the College is helping them reach their promise, as well as the importance of keeping tuition affordable and the urgent need for the Catherine and Isiah Leggett Math and Science Building at the Takoma Park/Silver Spring Campus.

In attendance were Sarah Haj Hamad, Amal Khashimova, Caleb Shauer, and Hubert Smith, who thanked the Board for the recognition and opportunity to have their voices heard.

Dr. Pollard acknowledged and thanked the students for their remarkable competence, engagement, and passion.

B. President’s Report

Dr. Pollard began her report by thanking Trustees who attended Trustee Information Day, which took place on April 1. She acknowledged the work of faculty, staff, and students in highlighting the College’s workforce development programs. She expressed regret in missing Trustee Information Day, stating that she was in New Jersey leading a Middle States reaccreditation review of a community college there.

Turning to campus news, Dr. Pollard recognized the Germantown Campus, which hosted Germantown Community Day to celebrate its 40th birthday. The event was very well attended and offered an opportunity to highlight the campus to the greater community.

She also acknowledged the Rockville Campus, where an Open House event was held on April 6. The event featured information and numerous opportunities for future students, including robotics, 3-D labs, metal casting artwork, MCTV, and many more interactive presentations.
Dr. Pollard introduced her monthly written report, which continued the yearlong theme of retention. She reported that the College works diligently to lessen the impacts of external factors on students’ decisions to stay enrolled, but there are many challenges students can face.

She concluded her report by highlighting some good news in terms of retention and enrollment. She stated that some employers are now increasing their investment in short-term credentials for employees and that Maryland’s College and Career Readiness and College Completion Act funds tuition for MCPS students in need. These factors may encourage new enrollments and keep dual-enrolled students in place with more regularity.

Trustee observations centered on the need to educate elected officials that our enrollment declines have been on the margin, and do not justify reductions in funding, which would put the College at risk in the future.

C. Chair’s Report

Board Chair Knapp echoed Dr. Pollard’s comments about Trustee Information Day and gave a special thank-you to Vice President and Provost George Payne and everyone who was involved.

Focusing on state government, Board Chair Knapp acknowledged that the day was sine die, the final day of the 2019 Maryland General Assembly. He reported that all the budget decisions were made last month—and the construction funding for the Catherine and Isiah Leggett Math and Science Building at the Takoma Park/Silver Spring Campus was secured along with the operating aid for the College. He thanked Dr. Pollard, her staff, and the students who were honored earlier in the meeting, as well his Trustee colleagues for all of the advocacy efforts made on the College’s behalf in Annapolis this year.

Speaking on behalf of the Board, Chair Knapp extended condolences to the family and friends of House Speaker Michael Busch, who had passed away the day before the meeting. Board Chair Knapp stated that Mr. Busch was the longest-serving Speaker in Maryland’s history and had served as a Delegate in the House since 1987, and had been a strong supporter of higher education.

Turning to local government, Board Chair Knapp reported that advocacy work continues as the county council begins its deliberations regarding the county’s budget. Hearings would be held this week at which he and many College representatives will be testifying. He said his testimony would continue to make the case for full funding of the College’s budget request, adding that the College worked very hard to craft a lean budget that protects affordability and provides fair compensation to recognize our valued faculty and staff who empower our students to succeed.

In other news about recent events, Board Chair Knapp announced that Dr. Pollard participated in the Education Budget Forums hosted by Councilmember Craig Rice, along with Dr. Jack Smith, superintendent of Montgomery County Public Schools. These forums provided a means to engage the public in a dialogue about education needs in Montgomery County.

Board Chair Knapp concluded his report with reminders of Dr. Pollard’s State of the College address on April 10 and the next Presidential Dialogue on April 30, which will feature a conversation with former County Executive Ike Leggett.

14. MONTGOMERY COLLEGE 2025 STRATEGIC PLAN UPDATE

Dr. Pollard presented a draft of the Montgomery College 2025 Strategic Plan, stating that preliminary work on the plan began in fiscal year 2017 with the Board of Trustees’ Envisioning the Future report and The Refining Strategic Planning at Montgomery College report. These two reports provided perspectives for the new strategic planning framework.

She stated that in fiscal years 2017 and 2018, three additional documents were created to guide the planning process—the Board of Trustees Strategic Planning Charge to the President; MC2025 Strategic Plan Project Charter; and Board of Trustee Strategic Plan Vision Statement. Dr. Pollard continued per the Board’s charge to her, the strategic planning committee was established in fiscal year 2019.

Dr. Pollard reported that the draft strategic plan’s goals, outcomes, and objectives reflect the Board’s and the committee’s engagement with a broad array of internal and external stakeholders about the future of education, work, the county, the College, and partnerships and how the College can best respond to the changing needs of our diverse communities and students.

She pointed out that the plan identifies six bold, progressive, and forward-thinking goals:

1. Empower students to start smart, succeed, and soar,
2. Enhance transformational teaching practices and learning environments,
3. Fuel the economy and drive economic mobility,
4. Build, engage, strengthen, and tend to community partnerships,
5. Invest in our employees, and
6. Protect Affordability
In addition to the draft strategic plan, Dr. Pollard also introduced the scorecard, which identifies key performance indicators tied directly to the outcomes of each goal and will be used to assess the success of MC2025.

She stated that a final draft of the plan will be brought to the May 13 meeting for the Board’s consideration, with the intention for adoption at the June 17 Board meeting.
