6. REPORTS
   A. President's Report

   Dr. Pollard began her report with news of two operational planning documents that would be shared with the College community later in the week—Roadmap to Resilient Transformation: A Thriving Montgomery College Post-COVID-19 Plan and the MC Raptors’ Health and Safety Plan. She stated that these plans include some guiding principles of the College’s work regarding COVID-19 and recommendations for reopening campuses and facilities that reinforce public health and promote safety compliance. Dr. Pollard explained that with the launch of our new Resilient MC webpage, these documents will be available in a single place and shared within the framework that the College has developed for continuing our mission in the context of our new normal.

   Transitioning to matters of outreach, Dr. Pollard reported that the College has distributed $2.4 million in Coronavirus Aid, Relief, and Economic Security package (CARES) funding to more than 5,000 spring Pell grant students and received more than 2,000 applications for need-based grants for the second round. She also reported that members of the staff union, AFSCME, unanimously voted to divert $75,000 of their EAP funds to students via emergency assistance funding from the College. Dr. Pollard highlighted the College’s partnership with Generation Hope to provide MC students with additional support through the Project Persist DMV initiative, to help students progress academically through the pandemic. In closing this topic, Dr. Pollard recognized Montgomery College’s support of the community through the production of face shields by a staff member using 3-D printers at the Germantown Campus, and a three-day blood drive, also held at the Germantown Campus, collecting enough blood to help 422 patients.

   Looking ahead, Dr. Pollard reported on plans for the Summer and Fall semesters, explaining that both the Summer I and Summer II Sessions will be offered in either online or structured remote teaching formats and Fall 2020 class sessions will begin online and in structured remote teaching format, with the addition of face-to-face teaching and learning if conditions improve.

   Dr. Pollard reminded the board of several milestone events, the first of which was the Dr. Harry Harden Jr. Student Academic Excellence Awards. This award event was held virtually and recognized high-achieving students, who have at least a 3.5 GPA for two consecutive semesters and have earned 24 credits. Dr. Pollard reminded the board that this year, commencement would be held in a virtual format and would feature messages from a number of local celebrities.

   In closing, Dr. Pollard proudly announced that Student Trustee Sarah Haj Hamad was chosen this year’s Presidential Scholar for the Takoma Park/Silver Spring Campus and will be among the distinguished students to be recognized at the virtual commencement ceremony.

   Trustee questions focused on the need to glean information from enrollment figures for the upcoming summer and fall semesters, particularly the number of students who will be new to
the College in the coming semesters, the number of students who were not initially planning to attend the College before the pandemic, and the level of interest in online classes.

B. Chair’s Report

Board Chair Aparicio Blackwell began her report with congratulations to the Class of 2020. She acknowledged their strength and determination in reaching their goals during such challenging times. She also thanked the faculty, staff, and families who supported the students on their journey to success.

Turning her attention to the president’s evaluation, Board Chair Aparicio Blackwell reported that this year’s evaluation process is nearing completion and that she and the board are most pleased with the progress Dr. Pollard continues to make in guiding the College community to fulfill our mission of empowering our students to change their lives.

Closing her report, Board Chair Aparicio Blackwell announced that board officer elections will be held in June and that she has appointed Trustees Knapp and Haj Hamad to serve as members of our nominating committee. She asked board members interested in either nominating someone or themselves to contact one of the committee members.

C. Strategic Plan Assessment Committee Report

As chair of the Strategic Plan Assessment Committee, Board Chair Aparicio Blackwell reported on its last meeting, which took place on May 1. She stated that the committee discussed activities for retiring the current strategic plan and discussed the president’s plans for implementing MC2025, the new strategic plan.

Dr. Kevin Long gave a summary of the components of the MC2025 Operation Plan, reporting that two teams were created to guide the implementation of MC2025. He reported that that the MC2025 Implementation Team’s scope of work is to assure alignment and integration of MC2025 with all other institutional master plans and efforts. He added that the scope of work for the MC2025 Data Team is to review the MC2025 scorecard and develop indicators for each variable and establish benchmarks. Dr. Long highlighted the agility and flexibility of the plan as the College responds to the evolving nature of the COVID-19 pandemic. He closed his report with thanks to members of the teams for their hard work.

D. Constituent Conversation Summary Report

A summary report of the FY20 Constituent Conversations was given by facilitators, Mr. Marcus Peanort and Ms. Christine Tracey. Mr. Peanort and Ms. Tracey reviewed the theme of this year’s Constituent Conversations, “The Future of Work,” and explained that due to the COVID-19 pandemic, the board was unable to hold the last Constituent Conversation meeting with the College Council. Mr. Peanort and Ms. Tracey recapped the discussion questions that were posed to each constituent group and identified three emerging themes that arose from the conversations: 1) preparing students for their future, 2) technology, and 3) develop new skills and workplace habits. In response to these emerging themes, Mr. Peanort and Ms. Tracey offered several takeaways and added that in the age of the current pandemic, even more considerations will come into play as the College considers the future of work.
