The students awarded the very prestigious transfer scholarships are: Anna Chacon, Eve Elias Stowell, and Marthe Medalebem Sandjol. President Williams informed the trustees that only 100 awards were given this year in the nation and that the scholarships would provide each student with up to \$55,000 a year to complete their bachelor's degrees. Dr. Williams expressed his gratitude for the faculty and staff who helped the students to earn these scholarships. He also acknowledged the 10 semi-finalists this year.

In other academic news, Dr. Williams gave a huge shout-out to the College's latest Fulbright faculty winner, Dr. Tiffany Thames Copeland, whose work in communications will take her to Ghana on this prestigious U.S. State Department fellowship. She is the twelfth faculty member to receive this honor at the College.

On the community front, Dr. Williams shared that the College is thrilled to be a part of a new workforce and economic development partnership through the ignITe Hub. ignITe stands for Innovative Growth in Next Generation IT Empowerment and is a collaborative space on the Rockville Campus that will extend the work of Montgomery Can Code to the entire county. The second project creates a WDCE mobile career center to offer community members pop-up services such as language literacy assessments, career coaching, advising, and career readiness in various neighborhoods. The final project will help newly enrolled, underrepresented students to navigate the process of applying for grants and scholarships to cover their college education with specialized training and support.
