BOARD OF TRUSTEES
MONTGOMERY COLLEGE
Rockville, Maryland

Agenda Item Number: 5A
December 12, 2022

PERSONNEL ACTIONS CONFIRMATION REPORT

BACKGROUND

The Board of Trustees by state law has the authority and the responsibility for appointments to the College. Each month the Board receives a summary of personnel actions from the Office of Human Resources and Strategic Talent Management on new hires and employees who have separated from the College.

RECOMMENDATION

It is recommended that the Board adopt the attached report.

Resolution
Policy 32201

RESPONSIBLE SENIOR ADMINISTRATOR

Mr. Collette
Dr. Rai

RESOURCE PERSONS

Mr. Dietz
WHEREAS, The Board of Trustees created Policy 32201–Minority Faculty Internship Program in 1987; and

WHEREAS, The policy has served an important purpose at Montgomery College in providing a method for the College to recruit potential new faculty members; and

WHEREAS, The policy has been reviewed and updated; and

WHEREAS, The president recommends that the Board adopt the modifications; now therefore be it

Resolved, That Policy 32201–Minority Faculty Internship Program be amended as shown in the attachment and be renamed to Inclusive Excellence Faculty Internship Program; and be it further

Resolved, That the president is authorized to implement these changes.
POLICY Board of Trustees - Montgomery College

Chapter: Personnel
Modification No. 002

Subject: Minority Inclusive Excellence Faculty Internship Program

I. As part of the College’s commitment to equal opportunity and affirmative action in employment maintaining highly effective and qualified faculty to meet the mission of Montgomery College, a teaching internship program for minority graduate students is established at Montgomery College. The purposes of the program are: (1) to provide an additional mechanism for recruiting minority faculty members, and (2) to provide an opportunity for members of minority groups graduate students to participate in a one-year program of professional development and training at the College. Interns who complete the program successfully will be eligible for assignment as members of the College faculty. The professional development of interns will occur throughout the academic year and is intended to support the acquisition of pedagogic skills while concurrently fostering the professional expectations of community college faculty.

II. Each year the College will identify those disciplines in which racial or ethnic minorities, or women, are underutilized at the College, as well as those disciplines in which more than 35 percent of the credit hours are taught by part-time faculty members. Eligible candidates for the program are students who have completed a master’s degree and are enrolled in a program of graduate studies leading to a master’s or doctor’s degree doctoral program in the discipline(s). Normally, candidates for the program will be in nearing completion of their last year of graduate study or doctoral degree.

III. Interns will be recruited from regional colleges and universities and will be assigned to teach two courses (up to seven equivalent semester hours per semester) and to perform additional assignments that will enhance the professional development of the intern.

IV. Salaries for internships will be established on an annual basis as part of the budget process.

VIII. The President is authorized to establish procedures to provide for the recruitment, employment, and supervision of the interns.

Board Approval: September 21, 1987; Date of Board Action
BACKGROUND

Per the Montgomery College 2025 strategic plan, Goal II: Enhance Transformational Teaching Practices and Learning Environments, a primary College objective is to identify and remove barriers to student participation in and faculty and staff implementation of transformational teaching and learning practices by increased distance learning offerings and improved student experiences. Montgomery College has seen tremendous growth in fully asynchronous online courses, and in recent years has also seen growth in synchronous structured remote courses. Open educational resources, zero cost textbooks, and extended winter enrollments also contribute to the College’s overall online enrollments.

Montgomery College currently offers 14 online degrees and nine online certificates. At this time, the cybersecurity discipline is prepared to offer fully online delivery options for four programs:

- Cloud Computing and System Administrator Certificate
- IT Professional+ Certificate
- Advanced Network Security Certificate
- CISCO Certified Network Associate + Security Preparation Certificate

Two cloud computing programs are prepared to include a fully online delivery option: cloud computing and system administrator certificate and IT professional+ certificate. All courses in the certificates are already offered in an online format. Formal online designation will allow the department to advertise the online programs to attract more students. A fully online option will also help family caregivers and full-time workers balance their personal and professional responsibilities while earning their degree.

Two cybersecurity programs are prepared to include a fully online delivery option: advanced network security certificate and CISCO certified network associate + security preparation certificate. Credits from the certificates can be applied to the cybersecurity associate of applied sciences, which already has a fully online option. A formal online option for the certificates follows suit and offers the same benefit to students as the degree.

The outstanding quality of a Montgomery College education remains the same for programs with a fully online option. The College’s online programs follow the same curriculum at the same cost as the on-campus options. All online programs are taught by the same expert faculty who teach on-campus, all of whom are trained and certified in online quality assurance. Students have online access to the College’s same exceptional student support services. Furthermore, Montgomery College’s Office of Assessment conducts an academic program review every three years to ensure the program curriculum and student learning outcomes are coherent, cohesive,
and comparable, regardless of program modality. The online delivery option will use the same institutional resources as the on-campus delivery option; no additional resources are needed.

**RECOMMENDATION**

It is recommended that the Board of Trustees approve the addition of a fully online delivery option for the aforementioned cybersecurity programs and that the president be authorized to submit change in program modality request to the Maryland Higher Education Commission.

Agenda Item Number: 8A

Subject: Addition of a Fully Online Delivery Option for Four Cybersecurity Programs

WHEREAS, Per the Montgomery College 2025 strategic plan, Goal II: Enhance Transformational Teaching Practices and Learning Environments, a primary College objective is to identify and remove barriers to student participation in and faculty and staff implementation of transformational teaching and learning practices by increased distance learning offerings and improved student experiences; and

WHEREAS, Montgomery College has seen tremendous growth in fully asynchronous online courses, and in recent years has also seen growth in synchronous structured remote courses; open educational resources, zero cost textbooks, and extended winter enrollments contribute to the College’s overall online enrollments; and

WHEREAS, Montgomery College currently offers 14 online degrees and nine online certificates and the cybersecurity discipline is prepared to offer fully online delivery options for four programs: cloud computing and system administrator, IT professional+ certificate, advanced network security certificate, and CISCO certified network associate + security preparation certificate; and

WHEREAS, Two cloud computing programs are prepared to include a fully online option: cloud computing and system administrator certificate and IT professional+ certificate; all courses in the certificates are already offered in an online format and a formal online option will allow the department to advertise the online programs to attract more students and help family caregivers and full-time workers balance their personal and professional responsibilities while earning their degrees; and

WHEREAS, Two cybersecurity programs are prepared to include a fully online option: advanced network security certificate and CISCO certified network associate + security preparation certificate; credits from the certificates can be applied to the cybersecurity associate of applied sciences that already has a fully online delivery option, and a formal online option for the certificates follows suit and offers the same benefit to students; and

WHEREAS, The outstanding quality of a Montgomery College education remains the same for programs with a fully online option; the College’s online programs follow the same curriculum at the same cost as the on-campus options; and

WHEREAS, All online programs are taught by the same expert faculty who teach on-campus, all of whom are trained and certified in online quality assurance; and

WHEREAS, Students have online access to the College’s same exceptional student support services; and
WHEREAS, Montgomery College’s Office of Assessment conducts an academic program review every three years to ensure the program curriculum and student learning outcomes are coherent, cohesive, and comparable, regardless of program modality; and

WHEREAS, The online delivery option will use the same institutional resources as the on-campus delivery option; no additional resources are needed; now therefore be it

Resolved, That the members of the Board of Trustees approve the addition of a fully online delivery option for the cloud computing and system administrator certificate, IT professional+ certificate, advanced network security certificate, and CISCO certified network associate + security certificate; and be it further

Resolved, That applications for approval of the new program modality for the aforementioned programs be forwarded to the Maryland Higher Education Commission.
ADDITION OF A FULLY ONLINE DELIVERY OPTION FOR TWO HEALTH SCIENCES PROGRAMS

BACKGROUND

Per the Montgomery College 2025 strategic plan, Goal II: Enhance Transformational Teaching Practices and Learning Environments, a primary College objective is to identify and remove barriers to student participation in and faculty and staff implementation of transformational teaching and learning practices by increased distance learning offerings and improved student experiences. Montgomery College has seen tremendous growth in fully asynchronous online courses, and in recent years has also seen growth in synchronous structured remote courses. Open educational resources, zero cost textbooks, and extended winter enrollments also contribute to the College’s overall online enrollments.

Montgomery College currently offers 14 online degrees and nine online certificates. At this time, two additional health sciences programs are prepared to offer a fully online delivery option:

- Health Information Management Associate of Applied Science
- Medical Coder/Abstractor/Biller Certificate

As an accredited program, the health information management program is required to maintain an advisory committee consisting of working professionals from various health facilities. In collaboration with the advisory committee, the discipline is requesting a fully online delivery option for the above health information management programs. The programs are moving online to meet the needs of students throughout the state of Maryland who might not have access to an accredited health information management or medical coding program. Additionally, a fully online option supports student success by providing working professionals a pathway to a professional credential, such as registered health information technician (RHIT) or certified coding specialist (CCS) certification. Lastly, the fully online option helps family caregivers and full-time workers balance their personal and professional responsibilities while earning their degree in an online format.

The outstanding quality of a Montgomery College education remains the same for programs with a fully online option. The College’s online programs follow the same curriculum at the same cost as the on-campus options. All online programs are taught by the same expert faculty who teach on-campus, all of whom are trained and certified in online quality assurance. Students have online access to the College’s same exceptional student support services. Furthermore, Montgomery College’s Office of Assessment conducts an academic program review every three years to ensure the program curriculum and student learning outcomes are coherent, cohesive, and comparable, regardless of program modality. The online delivery option will use the same institutional resources as the on-campus delivery option; no additional resources are needed.
RECOMMENDATION

It is recommended that the Board of Trustees approve the addition of a fully online delivery option for the health information management associate of applied science and medical coder/abstractor/biller certificate and that the president be authorized to submit change in program modality request to the Maryland Higher Education Commission.

BOARD OF TRUSTEES
MONTGOMERY COLLEGE
Rockville, Maryland

THE MONTGOMERY COLLEGE AUDITED FINANCIAL STATEMENTS FOR JUNE 30, 2022 AND 2021

BACKGROUND

Montgomery College is required to conduct an annual audit of the College’s financial statements and to prepare and have audited statutory financial statements included in the Annual Financial Report to the Maryland Higher Education Commission (MHEC-CC-4).

These audits of financial statements for June 30, 2022 and 2021 and MHEC-CC-4 were conducted by CliftonLarsonAllen LLP (CLA), certified public accountants and consultants.

The annual audit reports were presented to the Board’s Audit Review Subcommittee and to the Board’s Audit Committee for review and comment.

RECOMMENDATION

It is recommended that the Board of Trustees accept the audited financial statements for June 30, 2022 and 2021.

It is further recommended that the Board of Trustees accept the Annual Financial Report to the Maryland Higher Education Commission (MHEC-CC-4) from Montgomery College for June 30, 2022.

RESOURCE PERSON

Ms. Greaney
WHEREAS, Montgomery College is required to conduct an annual audit of the College's financial statements; and

WHEREAS, The audit of financial statements for June 30, 2022 and 2021 was conducted by CliftonLarsonAllen LLP (CLA), certified public accountants and consultants, and certified by the senior vice president for administrative and fiscal services and by the president; and

WHEREAS, The audit report was conducted in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards, issued by the comptroller general of the United States; and

WHEREAS, The annual audit report was presented to the Board’s Audit Review Subcommittee and to the Board’s Audit Committee for review and comment; and

WHEREAS, The Board of Trustees was informed that the College’s financial statements present fairly in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of Montgomery College as of June 30, 2022 and 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the years ended in accordance with accounting principles generally accepted in the United States of America; and

WHEREAS, The president of the College and the Audit Committee recommend that the Board of Trustees accept the following resolution; now therefore be it

Resolved, That the Board of Trustees accepts the audited financial statements for June 30, 2022 and 2021.
