WASHINGTON SUBURBAN SANITARY COMMISSION
SANITARY SEWER EASEMENT AT THE GERMANTOWN CAMPUS

BACKGROUND

The BRL Holdings, LLC, of Germantown, Maryland, is the owner/developer of a restaurant project on Frederick Road (Maryland Route 355). The attached campus map shows the location of the project, and a sanitary sewer easement area requested by BRL Holdings.

According to the requirements of the Washington Suburban Sanitary Commission (WSSC), the development of this project is contingent upon the receipt of an easement from the College for the benefit of WSSC in its construction and maintenance of a sanitary sewer connection to the project. The request is for a WSSC easement to construct a sanitary sewer extension on the eastern boundary of the Germantown Campus to provide sewer service to the project. The College has anticipated easement requests of this nature and, in fact, multiple sanitary sewer easements have been granted in the past for sewer connections to properties along MD 355. The total area of this sewer easement is 297 square feet (sf) or 0.0068 acre of land.

College staff has reviewed and found the plans for installing a sanitary sewer extension to be an appropriately engineered solution to the requirement to provide sanitary sewer service to the project. In addition, the easement location is at the periphery of the Germantown Campus and is entirely within the Gunner’s Branch flood plain and within typical setback restriction areas such that the requested easement location cannot be considered a buildable site by the College. The requested easement location does not conflict with the College’s master plan for the Germantown Campus. The Facilities Office has reviewed property values for the Germantown area with a local real estate firm and concluded that the fair market value of undeveloped residential-zoned property in the Germantown area is $7.50 per square foot. The easement requested for WSSC is 297 square feet, which results in a fair market value of $2,227.50 (297 sf x $7.50). As the easement request is not a fee simple acquisition and is located entirely within the 100-year flood plain along Gunner’s Branch, the standard approach is to reduce the fair market value by 75 percent. The value of the easement requested by WSSC is, therefore, set at $556.87 ($2,227.50 x .25).

The last time the Board acted on an easement request was in December 2010 when a water main easement was approved along with the future Observation Drive “right-of-way” near the Germantown Campus. In accordance with past practice by the state of Maryland, this easement request does not require Board of Public Works approval.
RECOMMENDATION

It is recommended that the Board approve this request for easement.
