

# Bachelor of Science in Engineering

## ELECTRICAL ENGINEERING CONCENTRATION

### The Program

- BS in Engineering – Electrical Concentration
- Transfer program – students enter with an Associate in Science, Associate in Science in Engineering or Associate in Arts and complete junior and senior years at Arundel Mills
- Course delivery - majority of courses on site, augmented with online and interactive video courses

### Short History

- First students started fall 2010 with first graduates in spring 2012
- Graduates employed in government and private industry
- Currently 20 students in the program, with graduates from Anne Arundel Community College, Community College of Baltimore County, Howard Community College and Montgomery College
- ABET accreditation received August 2014

### Why choose FSU at Arundel Mills?

- **High-Quality Instruction**
  - Taught by FSU Engineering and Physics faculty members
- **Low Cost**
  - In-state tuition rates
  - Scholarships (Associate Degree Scholars Award of \$1,250 per semester for qualified students)
- **Convenient Location**
  - Easy access to Rt. 100
  - Adjacent to Arundel Mills Mall
  - Free parking
- **World-Class Facilities**
  - New STEM labs with latest instruments and equipment
- **Small Class Size**
  - Individualized attention for students
  - Opportunities for interaction with faculty and classmates

### Frostburg State University

ANNE ARUNDEL  
COMMUNITY COLLEGE  
**UNIVERSITY  
CONSORTIUM**

Located at AACC at Arundel Mills,  
a Regional Higher Education Center

Arundel Mills

"The transition to Frostburg State University from Montgomery College is seamless. The courses were accepted by FSU, so students get to jump right back into electrical engineering courses, building upon knowledge obtained from Montgomery College. The class sizes are small, which allows for easy interaction with the professors and collaborations with other students."

– Alex Petito, Graduating Class of 2015
