

Cybersecurity Awareness Event

How Digital Forensics is used in Modern Criminal Investigation

Guest speaker

Prof. Silvia Vargas

- Digital forensics has become an integral part of modern criminal investigations, enabling law enforcement to uncover, preserve, and analyze digital evidence.
- Prof. Vargas will discuss how an employee murdered her employer and how a conviction was gained through the analysis of various types of digital evidence.

Thursday, October 17, 2024

Time: 12-1 PM

Cyber Lab, HT 229

Germantown Campus

The logo consists of the letters 'MC' in a bold, white, sans-serif font, centered within a purple square. The square is partially overlaid by a red triangle pointing downwards from the top left and a blue triangle pointing upwards from the bottom left.
