

Program Transfer Articulation Addendum

Bachelor's of Science in Climate Change & Community Resilience

This Program Transfer Articulation Addendum (this "Addendum") effective the date of the last signature below, is entered into pursuant to the Umbrella Program Transfer Agreement (the "Transfer Agreement") dated February 17, 2026, by and between Montgomery College ("MC") and Towson University ("TU" and collectively with MC, the "Parties"), and is incorporated into the Transfer Agreement. Unless specifically modified in this Addendum, all terms and conditions in the Transfer Agreement shall remain in full force and effect. Should any conflict exist between the Transfer Agreement and this Addendum, the terms and conditions of the Transfer Agreement shall prevail.

This Addendum establishes an articulated transfer pathway ("Pathway") in which students from the Associate of Applied Science Degree in Applied Geography program at MC may seamlessly transfer into the Bachelor of Science degree in Climate Change & Community Resilience at TU. For each degree program listed, a 2+2 Articulation Agreement shall be attached to this Addendum hereto and incorporated herein detailing the course equivalencies, general education, and major requirements, as well as any special admission and other additional requirements necessary for MC students to transfer into the aforementioned Climate Change & Community Resilience program at TU and successfully complete a bachelor's degree.

For the Pathway included in this Addendum, both Parties agree that faculty representatives from both institutions will meet regularly to engage in ongoing discussion to enhance and strengthen this collaboration and agree to update the Pathway and/or associated 2+2 Articulation Agreement whenever substantive changes in the degree programs listed occur at either MC or TU.

IN WITNESS WHEREOF, the Parties hereby have caused this Addendum to be executed by their duly authorized representatives.
