*If you plan to apply to a Montgomery College selective admission program in the health sciences, you may elect a pre-health science/general studies major while your application to the selective program is pending. Your interest in a health science program will be recorded; however, your actual major will be in general studies until you are officially admitted to the selective program. Refer to the Montgomery College Catalog for specific admissions requirements for these programs. Use the "pre" code associated with the program, e.g., 570 Pre-Nursing or 580 Pre-Physical Therapist Assistant, or you may choose any other Montgomery College major while your application to a health science program is pending. If unsure, contact a counselor for advice.

†Students planning to transfer to a four-year degree program in nursing are advised to check with the desired transfer institution to determine the requirements of the institution.

‡Refer to the Montgomery College Catalog for specific information regarding letters of recognition. Students seeking only a letter of recognition are considered nondegree seeking and are not eligible for financial aid.
