- The spring semester schedule for HS site and USG courses begin Wednesday, January 29 for MW/MWF classes and Thursday, January 30th for TR classes. HS site courses start two days later than on-campus/DL courses to align with the MCPS marking period.
- HS Site courses will recognize both the MC (3/16-3/20) and MCPS (4/6-4/13) spring breaks.
- College classes will be held as scheduled on the 2/28 and 3/27 early release days, but will NOT be held on the 4/28 Non-Instructional day.
- ** The AP Exam dates are set nationally and students must test during that time. In case of a schedule conflict, Individual students must communicate with faculty at the start of the semester and work with them, in conjunction with MCPS DEPA, to determine an appropriate make up plan for any missed class during the required testing time. Students may also be required to take a state HSA exam sometime in April.
- *** The Spring semester schedule can be extended one week for college courses offered at the high school and USG to account for significant missed time due to weather closings or AP exam scheduling. This is managed at the professor's discretion and in coordination with the Dual Enrollment office and the school
