

Winter and Spring Enrollment:

WINTER- The winter session schedule has been adjusted for 2020-21. **All winter classes** will now start the week of December 20th. All winter courses will be delivered online.

SPRING- The Spring 2021 class schedule will have three parts of term. Most courses will be offered in a January starting or March starting seven-week term through the distance learning or structured remote format. There will also be courses offered during the traditional 15-week term.

College Admissions Application:

The \$25 admissions application fee has been waived indefinitely. Students should apply via the regular online admissions application, however, the processing time may now take up to two weeks due to logistical constraints.

Assessment and Placement for College Courses:

The college is currently unable to administer the ACCUPLACER or ALEKS assessment testing, therefore will allow high school students to enroll in college courses without an assessment score on record for the winter and spring semesters. Note that Montgomery College also continues to accept other methods for determining course placement, including the SAT, ACT, AP and previous high school or college coursework.

Students with no assessment or placement scores on record will be eligible to enroll as follows:

Criteria for Rising High School Juniors and Seniors:

- Have at least a 2.75 unweighted HS GPA.
- Meet all other requirements and deadlines for Dual Enrollment.

Students who meet these criteria:

- May enroll in one course per summer term and up to two courses in the fall.
- Will be assessed at the ENGL101+011 and MATH 117/120 level.
- Will be eligible to enroll in any credit bearing course based on the assessment level above.
 - MCPS students may only enroll in designated courses to receive a CCRCCA discount in the fall. CCRCCA benefits do not apply to summer classes.

Criteria for Rising High School Sophomores and Freshman

- Have at least a 2.75 unweighted HS GPA (or equivalent middle school record).
- Meet all other requirements and deadlines for Dual Enrollment.

Students who meet these criteria:

- May enroll in one course in the fall.
- Will be eligible to enroll in any credit bearing course without an assessment level.
 - MCPS students may only enroll in designated courses to receive a CCRCCA discount in the fall. CCRCCA benefits do not apply to summer classes.
