

Who We Are

Three business units operate in the U.S.

USA Building

Specializes in safe and sustainable building construction across a variety of sectors, including life sciences, healthcare, education, commercial/corporate office, aviation, government, retail, hospitality and more.

USA Civil

Delivers critical infrastructure including bridges, power and energy, rail, roadways, airports, water/water treatment as well as power, rail and road tunnels in a safe and environmentally sensitive manner.

USA Commercial Development

Purchases, plans, develops, manages, leases and divests sustainable office, institutional and governmental projects in primarily five U.S. markets: Boston, Houston, Seattle, Washington D.C., and Los Angeles.

Get Involved

Internal Resource Groups

Skanska Women's Network (SWN) is a group dedicated to promoting and supporting a gender-inclusive culture that enables all of us to be better together.

Skanska Young Professionals (SYP) is a network of young employees seeking insight into Skanska's projects, offices and processes.

Community Investment

Community investment and local fundraising activities are voluntary, have a clear charitable purpose, and ideally are educationally-focused.

Global Programs

Skanska Unlimited is our exciting employee exchange program. Work in another Business Unit or function, either in your home country or internationally, for three to six months.

Skanska Top Executive Program is a program developed for members of management to have major potential to improve Skanska's performance over time.
