October 8th 1pm-2pm
TP/SS ST301

Presenter: Lauren Pires
Outreach & Training Program Manager

Gender-based violence is a global epidemic and no one culture is more susceptible to violence. We also know that violence manifests uniquely in each culture and needs cultural specific responses.

In this training, we'll talk about what domestic violence and sexual assault can look like in the Asian/Pacific Islander community and how to build culturally-specific resources for survivors.
