Subject: Resource Planning Tool Kit Update and Data Revisions

Please find attached an updated version of the Resource Planning Toolkit. This version contains a revised set of Discipline Costs, which have changed since the last time the costs were run in March 2016. Some of the reported data in Banner (bill hours, sections, and total expenditures) changed and, as a result, the calculations for costs by bill hour, section, and FTE have been updated. This data is now reconciled with the information reported to the Office of Business Services. The costs for FY16 now include recorded Summer I Session costs and hours.

There was an additional discrepancy in the Cost per FTE caused by a calculation error in the original spreadsheets, where the total cost was calculated by the fraction of FTE rather than the whole. The error has now been corrected.

We are also including a copy of the variance report that shows the variances recorded for each discipline and FY between the time the data was pulled out of Banner in March and when the data was pulled again on June 2nd.

We apologize for the errors and will work with the Office of Business Services to verify the data in Banner prior to preparing the next Tool Kit update.

2. Full Time-Part Time Faculty Ratios and Student Faculty Ratios

Full Time and Part Time Faculty Ratios are derived by comparing the total number of bill hours and ESH taught by full-time and part-time faculty .

Student-Faculty Ratios are calculated using total discipline bill hours divided by ESH. Student-Faculty ratio data only represents Fall and Spring terms.

Student-Faculty Ratio by discipline by time of day are calculated in a similar fashion, however the calculations are based on the time of day that particular bill hours are assigned. For purposes of this report, Morning classes are those taught between the hours of 8:00 a.m. to Noon. Afternoon classes are those taught from 1:00 p.m. until 4:00 p.m. Evening classes are those taught from 5:00 p.m. and later. Time of day calculations only include face-to-face instruction.

5. Seat Capacity by Discipline by Campus by Time of Day

Seat Capacity by Discipline is calculated by dividing the number of seats scheduled to be available in courses offered by each discipline by the actual enrollment.

Seat Capacity by discipline by time of day is calculated in a similar fashion, however the calculations are based on the time of day that particular enrollment occurs. For purposes of this report, Morning classes are those taught between the hours of 8:00 a.m. to Noon. Afternoon classes are those taught from 1:00 p.m. until 4:00 p.m. Evening classes are those taught from 5:00 p.m. and later. Time of day calculations only include face-to-face instruction.
