ENROLLMENT PROJECTIONS HIGHLIGHTS

- FY 2026 total credit hours are budgeted at 392,378.
 - This projection was accepted by the Senior Leadership, and represents approximately a 3.5 percent increase in the revised projected credit hours from FY 2025.
 - Originally projected at 355,117 credit hours, the FY 2025 revised projection (with known actuals accounted for) is now 379,304 credit hours—an increase of 6.8 percent.

Factors Related to Anticipated FY 2026 Enrollment Change:

- MC's "draw rate" of recent MCPS high school students in fall 2024 was approximately the same as it was in fall 2023 at 19.5%. This represents a trend toward a return to the fall 2020 draw rate of MCPS students to the college (21.4%).
 - The trend in the average number of credits that a student takes is also on a slight positive trend. This implies that credit hours are growing at a faster rate than our headcount. Our average credit load per student increased from 8.7 in Fall 2022 to 9.0 in Fall 2024. We expect this trend to continue positively.
 - Our analysis predicts continued enrollment increases for the next few years. The analysis demonstrates modest but consistent increases in enrollment of 1-2% from FY27 through FY30. The College's out performance of the enrollment model in recent years suggest continued growth of both the headcount and credit hours of enrolled students over the next 5 years.

The figures in this chart represent all the students receiving instruction in the credit programs of the College (not including Continuing Education noncredit offerings). Actual State Aid, however, is computed on the basis of an FTE figure representing State residents only.
