

Inability to Upload PowerPoint Presentations to Collaborate Sessions

Workaround: convert the PowerPoint slides to images before uploading.

- Open PowerPoint
- Open the presentation needed
- Click **File**
- Click **Save as Pictures**
- Save the pictures to your Desktop for easy finding
- Select Format: **JPEG**
- Click **Save**

The images are now saved to a new folder on your Desktop

- Open your session
- Click **Load Content**
- Go to your Desktop and open the folder created with the images from your PowerPoint Presentation
- Select All of the Images, by pressing **Command + A**
- Click **Open**
- Select: **Import Images as Individual Pages**
- Click **Load**

You should now see the slides in the Page Explorer
