Faculty Showcases

Check the ELITE’s MC Open website for information.

Sign up for an OER Open Lab or OER workshop in MC Learns.

Please call or email the ELITE support team members if you have questions about OER. Our team would be happy to come to your department for orientation to open educational resources (OERs) and/or Z courses.

MC MONTGOMERY COLLEGE
The MC Open initiative focuses on faculty redesigning courses using Open Educational Resources (OER) to leverage pedagogy that fosters student success while reducing costs and increasing access to course materials.

Montgomery College is committed to providing OER course options leading to degree completion (commonly called Z-degrees).

The MC Open initiative aims to:

1. Promote student success by encouraging faculty to redesign courses using Open Educational Resources and pedagogy that engage, connect and support student learning.
2. Make education more affordable by reducing or eliminating required costs for course materials.
3. Decrease time to degree completion by giving students the option of applying money towards an additional course rather than to books or other required course materials and by providing clear paths to degree completion.

More than 490 z-course sections in Fall 2019 with about 9,746 enrollments. Student textbooks savings estimated at more than $4.2 million total.

Open Educational Resources
Open – accessible (anybody can access them) and licensed for use. Free.

Z Courses
Courses in which there are no costs for textbook materials.

Z Degrees
Degree programs where all required courses are “Z” courses. The 5 “R’s” of OER – faculty can Retain, Re-Use, Revise, Re-Mix, Re-Distribute materials.

Using OER, students can:

• Meet course outcomes at the same or better rate than when the course used a publisher textbook
• Afford more courses by taking “Z” courses.
• Study using materials that better address the course outcomes (a better “fit”).
• Matriculate through selected degree programs whose required courses all use OER.

Z-Degrees
Z-degrees are recommended pathways that allow you to complete all the requirements for a degree by taking Z-courses. Currently, MC offers Z-degrees in Business and General Studies.
