

Workgroup meeting TP/SS Thursday 4/4/19

Present: Richelle Charles, Diego Hernandez, Phil Bonner

- Backward Design workshop
 - 2 attendees, but workshop was productive
 - Richelle Charles requested the workshop possibly be repeated for librarians
 - Match library goals with GenEd requirements, especially since libraries offer instruction
 - This instruction should focus on active learning, assessment, and pedagogy
 - Other (aside from Backward Design) workshops are also being called in
- New request from ELITE
 - Average should be once a week on each campus
 - Effective immediately
 - When you factor in Blackboard-related workshops that Alison Yu offers for faculty, we do actually offer quite a few workshops at TP/SS
 - We will have had 7 workshops at TP/SS aside from the many workshops Alison offers in Spring 2019
- Scheduling workshops in the evenings or on weekends?
 - What time works for faculty? Could we increase attendance this way?
