

Tutorial 3 – Hiding Caption File

The following instructions will guide you on how to hide caption file for your video.

Under the **Video Subtitles** screen, look for the caption file you would like to hide. For this tutorial, we are going to hide the English (Automatic) caption file.

Mouse over the three dots (Options) and click on the dots.

Language	Modified on	Title & description	Subtitles
English (video language)	Mar 9, 2020	Published by Creator	Published by Creator
English (Automatic)	Feb 17, 2020		Published Automatic Options

Then select **Edit on Classic Studio**.

Title & description	Subtitles
Published by Creator	Published by Creator
	<ul style="list-style-type: none">Edit on Classic StudioDownloadDelete

You will see the **View Published Subtitles and CC: English (Automatic)** screen.

On the top right hand corner, you will see two options: **Edit** and **Unpublish**.

Click on the **Unpublish** button to hide your caption file.

Now, click on **Return to YouTube Studio** on the top right corner. **DO NOT** click the **Save Changes** button.

You will be taken back to the Channel Dashboard.

You can close out this tab and go back to the Video Subtitles tab, or you can click on the Videos link on the left-hand corner and locate your video. When you go back to the Video Subtitles screen, the English (Automatic) caption file should be gone.
