PREFACE

Since many students take courses at multiple locations and in a variety of modes, in this *Student Enrollment Profile and Fact Book*, we report credit student enrollments at any “location” (campus, off-campus, or coursework taken online) that they might be attending. So, please note two considerations in reading the data tables:

- The number of students reported in each campus and category will add to more than the total number of students at the College. The **total** College student counts are “unduplicated” – that is, they reflect a student only being counted once, even if that student attends multiple locations.
- Students and credit hours reported in the “Off-Campus / Distance Education” category are also included in the totals for the individual campus that administers each course.

Categorizing and reporting students by ethnicity and race has been changed beginning with the data provided in this *Profile and Fact Book*. Put simply, there are a variety of differing conventions and requirements for reporting race, ethnicity, and citizenship of students depending on the criteria established by the receiving entity. For example, in reporting students to the National Center for Education Statistics (NCES), the College must re-categorize a number of students as “foreign” instead of reporting their race/ethnicity category. That affects approximately several thousand students each semester and year.

Going forward, the College will report, for most purposes, students by race and ethnicity and reserve the “foreign” categorization of students for NCES. In addition, the College will be reporting Hispanic/Latino ethnicity for students who have so indicated, and not reporting any additional “race” categories they may have selected in their application for admission. This enables the College to more closely conform to Census data race/ethnicity counts and reports.

1. Total College is unduplicated student count, although students who attend multiple campuses (n=3,427) are counted at each campus they attend.
2. Distance Education only includes 100% online courses. Off-campus courses are counted at the sponsoring campus.
3. "Multi-Race" does not include any Hispanic/Latino students who may also have self-identified in a "race" category; all Hispanic/Latino students are only counted as "Hispanic".
4. Residence is based on student tuition rate coding.

* International Students are defined as students who are not US citizens. Permanent residents are included in this group.

** The Institute of International Education (I.I.E) defines a foreign student as "anyone who is enrolled in courses at institutions of higher education in the United States who is not a U.S. citizen, an immigrant (permanent resident), resident alien, visitor, undocumented person, or a refugee." For MC, we have a large number of Political Asylum (PA Visa) students (n=246), but they are excluded from counts of foreign students.

WD&CE Course Enrollment and FTE Status

WD&CE FTE in FY2017

* In Maryland, a FTE is calculated by converting course contact hours to "equated credit hours" (dividing contact hours by 15) and then dividing by 30. A number of WDCE courses, and some (e.g., out-of-state or very young) students are not eligible for state funding.

Note: Transfer data reported here include students who took at least one course at MC prior to transferring to another four- or two-year institution. However, when publicly reporting "transfers," the College uses the convention of counting transfer students as those who accumulated at least 12 credits at MC prior to transferring to a four-year institution.
