Join us to hear student parents share their personal stories of overcoming barriers in pursuit of their college degrees, followed by a question-and-answer session. During this event, we will also present the strides MC has made to become a family friendly institution and data on MC's student parent population.

We will be joined by Nicole Lynn Lewis, Founder & CEO of Generation Hope — a regional nonprofit that engages education and policy partners to drive systemic change and provides direct support to teen parents in college as well as their children through holistic, two-generation programming.

All members of the MC community are encouraged to attend to learn more about this population that has too often gone unnoticed. Please attend and show your support.
