Date: January 19, 2024

Subject: Spring 2024 Registration Extended

Due to the recent weather events affecting access to in-person services, Montgomery College will extend the regular registration window for the spring semester through Wednesday, January 24. Students will have access to register for spring courses without the need for special permissions during this extended window. Starting on Thursday, January 25, students will follow standard procedures for requesting special permissions for late registration.

Best wishes for a successful spring semester!
