2023 CONFERENCE: GLOBAL LEARNING LOCALLY

ABOUT THE CONFERENCE

The Maryland International Education Consortium ([MIEC](#)) and the Maryland Community College International Education Consortium ([MCCIEC](#)) announce their 2023 conference ***Global Learning Locally***.

Activities begin with a pre-conference virtual event the evening of February 2 followed by in-person activities in Cambridge, MD, from February 3 to 5.

With its rich history as a seaport and links to Harriet Tubman, Cambridge is a quintessential small Maryland town – the perfect place to hone our skills on the conference theme as international educators working in an increasingly domestic context.

This conference builds on the growing need in international education for campus- and community-based global learning – a pivot that has accelerated in recent years and that aligns with many institutions' diversity, equity and inclusion (DEI) efforts.

Conference participants will engage in workshops led by experienced international educators, a multi-disciplinary practicum on program design and leadership, sessions led by skilled peers, and networking activities.

Conference content will include:

- Strategies for exploring global concepts in a local context
- Global learning on campus, including virtual international partnerships

- Developing and fostering community partnerships for local engagement
- Risk management off campus
- DEI and global learning locally
- Creating multi-disciplinary programs
- Leading study away USA programs
- Recent trends and innovations in study abroad

CALL FOR PROPOSALS

Session proposals should fit a 30-minute time frame and focus on a topic aligned with one or more of the bulleted conference themes above. Discussion/interactivity is encouraged.

Submit proposal(s) online by January 11, 2023, and anticipate notification of status via email by the following week.

Abstracts of proceedings will be made available online after the conference.

(Note: Proposing a session is optional.)

KEYNOTE SPEAKER

Kent Koth is the executive director of Seattle University's Sundborg Center for Community Engagement, which he founded. He is an expert on campus-community partnerships, including in the context of international education. Among his publications is an influential chapter on this topic in the 2015 book *Putting the Local in Global Education* (Sobania, ed.), which his keynote address will explore in depth.
