Math in the Real World  
Math is used every day! Did you know that minor home improvement projects are loaded with tons of measuring lengths, widths, and how much lumber you will need to complete your project? Grocery shopping is a weekly task that incorporates math; calculating prices while you shop, making sure you have the correct amount of money, and using coupons. Did you know that food items are not taxable? Baking requires math skills; when you bake a pie, cake or cupcakes, you will be using math by measuring ingredients correctly. In this class you will learn the value of time, creating your own to-do-lists and assigning tasks based on how long you think they will take. Math is everywhere!

The Challenge Program
Winter/Spring 2021 Course Schedule

All Winter/Spring 2021 Challenge classes will be offered as Structured Remote (SR)

Structured Remote classes are scheduled on specific days and at specific times. Students meet as a class remotely through Zoom or Blackboard Collaborate; instructors will tell students which software to use. Students complete reading and assignments according to the course schedule. Class sessions take place in real time, and the instructor leads course sessions.

These unique courses will help adults with developmental disabilities function more independently in the home, at work, and in the community. Of equal importance, students will have the opportunity to increase their social and community awareness by visiting Montgomery College and learning what it has to offer.

Before attending Challenge courses, please call 240-567-5188 for time changes, date changes and course cancellations. Please register on time, classes fill quickly.

Student Expectations
Students are expected to be able to navigate the campus independently and must abide by the student code of conduct. Any violation may result in disciplinary action, including dismissal from the program.
