T2 | Tech Transfer |

Introduction to Technology Transfer and Commercialization

Course: SMB035 30 Hours

\$245 + \$250 fee = \$495; NMR add \$225

Rockville Campus

CRN#: 34874 Wednesdays

02/08-05/03 6-8:40 p.m.

This course provides an introduction to the field of technology transfer—the process of moving discoveries and inventions from the lab into organizations that transform them into the innovative products and services that improve people’s lives and drives economic growth. The course provides a unique opportunity for students to comprehend the processes used in technology transactions and the issues encountered along the pathway of moving from invention to innovation. Students will gain insight from professionals in a variety of institutions with substantial expertise in the field and develop an understanding for the type of operations undertaken in a technology transfer office.
