WHAT IS WORKFORCE DEVELOPMENT AND CONTINUING EDUCATION (WDCE)?

The Workforce Development and Continuing Education (WDCE) programs at Montgomery College provide a wide range of noncredit and credit educational offerings and services designed to meet the needs of county residents and businesses. Individuals in career transitions, those reentering the workforce, and those maintaining current technical skills, as well as those seeking lifelong education enrichment experiences, are among the 25,000 students each year. High-quality noncredit courses are available in numerous program areas including information technology, small business and management, technical training, certification and licensure preparation, financial planning, real estate, early childhood education, health sciences, professional development, writing, English as a Second Language, human resources, supervision, and more. Special programs are available for older adults, adults with developmental disabilities, and Spanish speakers. Course offerings change continuously to reflect the ever-changing needs of the businesses and communities we serve. As you peruse the programs and services in this publication, we're sure you'll find a wide variety of offerings suited to you.

In addition to classes for individuals, we contract with many businesses and government agencies to provide customized training for their employees. These classes are held at places of employment or can be offered at WDCE sites throughout the county.

About Our Students

When you enroll in one of our Workforce Development and Continuing Education courses, you will be joining more than 25,000 people who have attended our programs during the past year. These people come from diverse backgrounds but have one thing in common: the desire to learn new things. Although the median age of our students is 40, many of our students are young or older adults. Students come from all corners of the community, regardless of age and educational experience.

About Our Faculty

Our faculty are carefully screened professionals with expertise in their fields. Some are drawn from the College's credit faculty. Instructors are hand-picked for their teaching skills, professional knowledge, and talent, ensuring our reputation as a provider of high-quality courses.

Where to Find Us

Classes are held on the Germantown, Rockville, or Takoma Park/Silver Spring Campuses at Montgomery College and two satellite Campuses–East County Education Center in Silver Spring and Westfield South in Wheaton. Additional off-campus locations have been selected for convenience, amenities, and suitability for instruction. Classes meet at more than 40 locations countywide, including on site at places of employment.

Open to All

Montgomery College is committed to equal employment opportunity that assures access, equity, and diversity. Further, the College is committed to providing an environment in which all persons are provided the opportunity for employment, participation in academic programs, and/or other college activities free from discrimination, any form of harassment as prohibited by federal regulations and state law, and sexual assault.

National Recognition

Montgomery College Workforce Development and Continuing Education is certified by the Learning Resources Network (LERN), an international association in lifelong learning. LERN has rated our Workforce Development and Continuing Education unit as one of the leading providers of continuing education programs in North America.

Our Mission

Montgomery College is where students discover their passions and unlock their potential to transform lives, enrich the community, and change the world.

Our Vision

Montgomery College will serve as the community's institution of choice to transform the lives of students and Montgomery County.

Our Values

Equity and Inclusion, Excellence, Integrity, Innovation, Adaptability, Sustainability, Respect

Chair Caning Basics

Learn chair caning and restore older chairs to usefulness and beauty. Caning uses wood strips to weave part of a chair, often on the seat or back. Starting with an empty wooden frame, prep cane strips, weave, and bind a strong cane feature. Stain your finished product any color from pale blond to deep walnut or black. Learn to handle cane, manage breaks and splits, and spot common problems. By the end of class, you will be able to cane chair seats that are square, round, or anything in between. Open to students of all levels. TWA

Collage & Assemblage

Create works of art using the images, objects, and materials found throughout your everyday life. Learn to see the artistic potential in the annoying and mundane—a parking ticket, dryer lint, or even a dead fly! Since the earliest collages of Picasso and Braque, this way of working has greatly influenced contemporary art practices from painting to sculpture. Engage in weekly explorations of modern and contemporary artists working in collage or assemblage. Through the creation of 2D collages and 3D assemblages, gain skills in organizing successful compositions, utilizing principles of design, and working with color schemes. Open to students of all levels. TWA

Course: ADS517 **25 Hours**

Printmaking

Intaglio Printmaking (CoL)

Discover the art of intaglio and use it to create delicate, expressive prints. Since the Renaissance, artists from Rembrandt to Picasso have used intaglio techniques to create some of their most important works. Intaglio printmaking involves drawing fine lines with a sharp tool on a metal plate. Ink pressed into these lines forms the final image. Learn intaglio techniques of drypoint hardground, softground, aquatint, and engraving, and use them to create a final edition of prints. TWA

Monotype Printmaking Basics

Delve into the art of monotype, a captivating printmaking process renowned for producing one-of-a-kind prints. Paint your designs directly on a blank plate and transfer them to paper, layering multiple plates to create a singular expression of your artistic vision. Explore printing methods, including manual strategies and the printing press. Learn planning and design practices that help you ink quickly and confidently. A key aspect of monotype printing is its potential for experimentation and creative exploration. Push the boundaries of the medium, experimenting with different techniques, materials, and approaches to develop your unique artistic style. Whether you're a seasoned artist looking to expand your artistic vocabulary or a beginner curious about the world of printmaking, join us and explore this versatile medium. Text Based Art Practice *NEW*

Discover how intersectional identities and language are transformed into both medium and subject. Text-based art commands a unique space where words become more than just communication tools; it acts as visual expression, blurring the line between language, image, performance, print, installation, and post-conceptual realms of integrating narrative. Class is open to all students and will engage in group writing exercises, identity-based inquiry, critique, and interdisciplinary approaches. Whether the outcome is a prop, artifact, manifesto, joke, letter, declaration, command, vow, script, slogan, poem, spoken word, instruction, story, or song, the artist will use their own voice while exploring the aesthetic qualities of typography, linguistic formats, repetition, and structure. Claude for Work and Productivity

This course is ideal for working professionals and individuals seeking practical AI productivity and automation skills for today's evolving workplace. Students will develop hands-on expertise in prompt engineering, advanced conversational AI techniques, and AI-assisted problem-solving using Claude. Through real-world applications, participants will learn how to use Claude for research, reporting, data interpretation, content creation, project management, and workflow automation. The course also explores how to build persistent knowledge bases with Claude Projects, create interactive applications and visual content using Claude Artifacts, and automate complex business tasks through Claude CoWork and the Computer Use API. In addition, participants will examine

responsible AI practices, including data privacy, ethical considerations, and strategies to identify and mitigate AI bias in professional environments. *Prerequisites: Basic computer literacy: file management, web browsing, email, basic knowledge of prompt engineering.* TWA

Cloud–Introduction

Step into the exciting world of cloud computing at Montgomery College! In today's digital age, our treasured photos, important documents, and favorite videos find their home in the vast expanse of the cloud. But with so many services available, navigating the cloud landscape can feel like exploring uncharted territory. Fear not! Our comprehensive course is your compass, guiding you through the major players of cloud computing–from OneDrive to iCloud, Google Drive to Netflix, and iTunes–and empowering you to harness their full potential. And for those intrigued by the technical side of cloud computing, consider exploring our Amazon Web Services (AWS) course sequence. *Prerequisites: Mastering Windows Fundamentals (ITI499) or equivalent experience.* TWA

Mastering Windows Fundamentals

Develop essential skills to excel in both professional and personal computing with our comprehensive Windows course. Designed to equip you with the fundamental knowledge and techniques necessary for efficient computer management, this course is your gateway to maximizing productivity in any environment. Dive deep into the Windows user interface, exploring its core capabilities and functionalities. From effectively organizing and managing computer files to seamlessly navigating between locally installed and cloud-based applications, you'll gain the expertise needed to streamline your digital workflow. But that's just the beginning. Prepare to expand your digital horizons as you learn to browse the internet with confidence and master basic Windows settings to tailor your computing experience to your preferences. TWA

ESL

ESL Noncredit offers many courses for students whose first language is not English. Courses include instruction in reading, writing, speaking, listening, grammar, pronunciation, and vocabulary. Beginning through advanced levels are available. You can take our classes if:

- your first language is not American English; and
- you have not completed 10 or more years of study in a U.S. school (elementary, middle, high school)

We have classes on the Rockville and Takoma Park/Silver Spring campuses. We also have classes taught remotely through Zoom, Blackboard and other online tools. If you register for a remote class, you will receive the Zoom link the day before the class begins.

On-campus classes may meet occasionally over Zoom due to weather or other circumstances.

For online classes, you must have reliable internet service and a computer or tablet from which you can access Zoom, email and other websites. **Do NOT plan to take online classes only with your phone.**

After your course begins, you may be moved to a different class if your teacher finds you are in the wrong level.
You must register in person at one of the registration locations several days before the class begins. If you cannot, you must contact the ESL Placement Office at 240-549-2691 or ESL-Rockville@montgomerycollege.edu.

Please go to our webpage for more detailed registration information or call Customer Service at 240-567-5188 for help. This information is accurate at the time of publication but may change.

Disability Services
If you need support services due to a disability in order to take a test or take a class, you must contact Natalie Martinez at 240-567-4118. This must be done at least two weeks before the test date (or the class start date) in order to ensure timely services.

Testing for New Students
If you wish to take classes, you must take the ESL Assessment Test (in-person in Rockville) or go through the MC ESL Placement process (online).

ESL Assessment Testing Dates for New Students (in-person in Rockville)
Please come to the 2nd floor of the Campus Center Building, Room 220 at one of the following times:

Wednesday	**12/16**	**10 a.m.**
Thursday	**12/17**	**6:30 p.m.**
Tuesday	**1/5**	**6:30 p.m.**
Wednesday	**1/6**	**10 a.m.**
Monday	**1/11**	**10 a.m.**
Wednesday	**1/13**	**6:30 p.m.**

No appointment is necessary. If there is no space left, you will be given other testing times. You will be asked to come back another day to get your test results and course placement level. For safety and security reasons, please do not bring children. Alternatively, you can bring another adult to supervise your children. Do NOT come to testing if you are sick.

Takoma Park/Silver Spring Campus (TP/SS)
If you want to take classes in TP/SS, you can take the test in Rockville. You can also contact us in TP/SS via email at ESL-Takoma@montgomerycollege.edu or by phone at 240-567-5611 for possible testing dates.

Returning Students
You must register in person based on the recommendations from your instructor at the end of your last class. If you took this class more than one year ago, you need to contact us to see if you need to be retested. You can only take a course three times. If you do not pass with a grade of A or B after three times, you cannot take it again without special permission. Please contact us if you have a question or need help with registering.

Degree-Seeking Students
If you went through the MC ESL Placement process and placed into ESL Noncredit, call 240-549-2691 or email us at ESL-Rockville@montgomerycollege.edu. If you already have a placement, you can register in person at one of the registration locations--you do not need to contact us, but you can if you have a question. If you need help registering, please call us at 240-567-5188.

Clinical Medical Assistant

Clinical Medical Assistant Program

This program is intended for students who want to prepare for an exciting, challenging, and rewarding career in healthcare. This program will train you to assist physicians by performing functions related to the clinical responsibilities of a medical office. Instruction includes preparing patients for examination and treatment, routine laboratory procedures, diagnostic testing, technical aspects of phlebotomy, and the cardiac life cycle. You will review important topics including phlebotomy, pharmacology, the proper use and administration of medications, taking and documenting vital signs, cardiology including proper lead placements, professional workplace behavior, ethics, and the legal aspects of healthcare. This program includes 96 hours of classroom lecture and hands-on labs and a clinical externship opportunity (Course# HHS126) at a local healthcare provider. To be eligible for the clinical rotation, you must successfully complete the 96-hour course, submit to a thorough background check and drug screening, and meet other requirements. Note: Upon successful completion of this program, students would be eligible to sit for the National Healthcareer Association (NHA) Certified Clinical Medical Assistant (CCMA) national examination. HS Diploma or GED is required. This course is VA-approved for GI Bill benefits. TWA

Health Career Training

Dialysis Technician Program

Gain the knowledge and skills needed to work as a dialysis technician. Under the supervision of physicians and registered nurses, dialysis technicians operate kidney dialysis machines, prepare dialyzer reprocessing and delivery systems, and maintain and repair equipment. Technicians work with patients during dialysis procedures, monitor and record vital signs, and administer local anesthetics and drugs as needed. They also assess patients for any complications that occur during the procedure and must be ready to take necessary emergency measures like administering oxygen or performing basic CPR. Note: This program does not include a national or state certification as part of its overall objectives. Additionally there is no student internship or clinical rotation offered as part of this program. TWA

Nursing

Nurse Refresher Classroom–Hybrid Blackboard

The Nurse Refresher course is designed for Registered Nurses (RNs) and Licensed Practical Nurses (LPNs) who want to return to clinical nursing practice. The program is offered in a blended format, combining online learning, in-person classroom instruction, skills lab training, and supervised clinical experience. Licensing Requirements: You must have one of the following Maryland nursing licenses: 1) An active Maryland nursing license that is in good standing and not expired, or 2) A current inactive Maryland nursing license. Individuals applying for a Maryland nursing license for the first time may be eligible to take the refresher course using a Temporary Maryland Nursing License, if they qualify. If you hold a nurse licensure compact (NLC) license, please contact your state Board of Nursing to determine whether this refresher course meets your state's requirements for returning to active practice.

The Nurse Refresher Program is eligible for the Tuition Installment Plan (TIP) for both the classroom and clinical portions of the program. You must concurrently enroll in NUR078, NUR023, and NUR007.

Art History

Art Nouveau: A Short-Lived Style with Lasting Appeal

Art Nouveau-a style that is characterized by sinuous, organic lines. It flourished in Scotland, Austria, Belgium, France, Spain, Germany and the US from around 1890-1910. Think Antonio Gaudi and La Sagrada Familia or the lamps of Louis Comfort Tiffany. We'll explore the different ways architects and artists interpreted the style in buildings, posters, jewelry, glass, and paintings. Credit for originating this style is usually attributed to William Morris (1834-1896), but Victor Horta, Gustav Klimt, Henri de Toulouse-Lautrec, Alphonse Mucha, Charles Rennie Mackintosh, and Margaret Macdonald were the major contributors. The Art of Architecture I

Step into a time machine as we trace the global evolution of human design, from mammoth-bone shelters to the Colosseum of Rome and the golden cathedrals of Byzantium. You will discover that architecture is far more than humanity's tool for survival; it is also a tool of social control and cultural expression. Early builders used mud or stone to engineer history's first structural marvels. Later, empires and religions transformed simple shelters into power statements. How a structure looks is never an accident, but a reflection of a society's symbolic canons and technological capabilities. TWA

By Any Other Name: The Origins of Names

What's in a name? This course explores the surprising histories behind what we call people, places, and products. We trace first names and the nicknames derived from them, then examine surnames—occupational, patronymic, and place-based—and how they reveal family and migration history. We turn to place names, from ancient origins to colonial renaming, and to the curious world of naming laws, where some countries legally restrict what parents can name a child. We close with brand names, exploring how companies craft names as marketing tools. TWA

Exploring Magical Consciousness: Spirits, Magicks, and the Interior Life

What if the fleeting moments of insight, connection, or meaning you experience are not imagination, but a genuine form of spiritual knowing? This four-part series explores the concept of magical consciousness– the idea of deep and intuitive dimensions of spiritual awareness present in everyday life. In anthropology and spiritual studies, magical consciousness refers to an alternative orientation of mind that engages emotion, imagination, and associative rather than strictly logical thought to perceive deeper patterns and interrelations in the world. Through meditative practices, historical inquiry, and gentle introspection, the course will explore magical consciousness not as fantasy or superstition, but as an embodied form of spiritual knowing rooted in personal experience, cultural history, and everyday life. Failsons, Remittance Men and Nepo Babies: A History of Inherited Privilege Without Inherited Talent

This course traces history's long, entertaining pattern of privilege without competence. We begin in antiquity with Commodus, whose reign squandered father Marcus Aurelius's legacy for gladiatorial spectacle, and move through medieval England's Richard II, deposed for incompetence that undid Edward III's hard-won gains. In the 19th century, we examine Britain's remittance men—wayward aristocratic sons shipped off to the colonies to save the family name. We close with contemporary nepo babies, from business empires to political dynasties like the Kennedys, asking whether inherited privilege has changed at all. TWA

For the Benefit of Ladies and Gentlewomen: A History of Dictionaries and Self-Help

Long before self-help gurus, there were dictionaries—and they weren't neutral. In 1604, Robert Cawdrey published the first English dictionary for the benefit and help of ladies, gentlewomen, and any other unskillful persons, launching a genre built on self-improvement as much as language. We trace that thread through Johnson and Webster's competing visions of linguistic authority, the astonishing true story of the Oxford English Dictionary's volunteer army (including one contributor writing from inside an asylum), and the conduct manuals that evolved into modern self-help. Israel and Gaza: From Conflict to Conflict

On October 7, 2023, a new chapter in the Middle East erupted in the wake of the mass attack by Hamas militants on Israel, killing more than 1,200 civilians, and leading to another round of violence. While the scale of the attack was unprecedented, violence between Israel and the residents of Gaza dates back for decades. In this class, we will examine the historical background of the conflict between the two sides, starting from the first major battles in 1948. We will explore the Palestinian narrative of loss and displacement as their justification for their actions on October 7, along side with the Israeli's fight for security and existence. Analyze how third parties such as the United States, Russia, Iran, and Israel's Arab neighbors view the conflict. TWA

Jewish Gangsters?

They wore tefillin, joined synagogues, and ran some of the most notorious criminal operations of the 20th century. This course explores the surprising and complicated history of Jewish organized crime, from the mythologized American mobsters—Meyer Lansky, Bugsy Siegel—born of Lower East Side poverty and exclusion, to the far darker story of Zwi Migdal, a transnational trafficking network that preyed on Jewish women fleeing pogroms. We examine why these histories emerged, how Jewish communities fought back, and why gangster means something very different depending on which story you're telling. TWA

Nazi Hunters: Justice, Vengeance, and the Limits of the Law

The Nuremberg trials promised justice, but thousands of Nazis slipped away using covert escape routes to South America and beyond. This course traces their flight and the decades-long hunt that followed: German prosecutor Fritz Bauer's dangerous choice to bypass his own government and tip off Mossad, the dramatic capture and trial of Adolf Eichmann, and the notorious cases – like Josef Mengele – that were never solved. We close with today's prosecutions of elderly former camp guards, asking what justice means when it arrives eighty years late. TWA

Woody Ornamentals for the Mid-Atlantic Region

The course will discuss the options for trees and shrubs for use in the Mid-Atlantic residential landscape. We will discuss the need to eliminate the use of invasive species in our region, as well as options to replace these too common species within our landscape. The course covers both native species and select non-native species, and the need to choose woody ornamentals as a long term investment. Emphasis will be placed on species native to the region better suited to the residential site and how proper selection of species reduces the need for pruning and reduces the maintenance required. There will be a focus on how to create living low maintenance gardens that will endure. Additional content includes the need for soil and water testing prior to planting and how to access testing facilities as well as the Tree Montgomery program, the Rain Garden program, and the Street Tree programs within Montgomery County. Mentor Coaching

Mentor coaching involves a student being coached on their coaching skills rather than on practice building, life balance or other topics unrelated to the development of a participant's coaching skill. Mentoring is intended to serve as a development process for the participant that takes place in a repetitive cycle of receiving feedback regarding participant coaching, reflecting on this feedback, and practicing new skills. The focus must be on the development of skills using the ICF Core Competencies. This class is required for those who need to fulfill the 10-hour mentor coaching requirement for the ICF ACC Level 1 credential, the ACC Portfolio Path application, or the ACC credential renewal. Under the guidance and instruction of a qualified Mentor Coach, you will review all (8) updated ICF Core Competencies for deeper learning in a group setting and work one-on-one with the Mentor Coach to refine your individual coaching skills in preparation for the Performance Evaluation (if needed). Resources will also be provided to prepare for the ICF Credential Exam and to complete the ICF ACSTH or Level 1 credential application or for ACC credential renewal application. Per the ICF's requirement, the program must take place over a minimum of a 3-month period. TWA

Discover tap dance, the dominant performance dance form of the early 20th century. Invented in the African American community, tap quickly became the standard in vaudeville and musical theater, later forming the basis for jazz dance. Perform the basic steps of this percussive, syncopated dance style and walk in the footsteps of greats like Bill "Bojangles" Robinson, Fred Astaire, Sammy Davis Jr., and Shirley Temple. Learn to shuffle, flap, paddle, and roll and build simple rhythmic combinations that can combine into more complex choreography. This course is designed for new dancers and those who have never explored tap dance formally. TWA

Health Care Insurance for Retirement

This course will address the major components of retiree health care: Medicare, Medicare Advantage Plans, and Long-Term Care. Health care costs typically rise at twice the inflation rate, so the course will also address ways to fund this expense through tax-advantaged plans. Determine the cost of supplemental coverage, evaluate your ability to pay for health care not covered by federal or state programs, and be able to project your health care expenses. The target audience for this course are those planning as they approach retirement; those newly retired; and those who have been retired but need to update their understanding of their current policies relative to new Medicare and LTC policy options. Long Term Care Planning: A Vital Component of Retirement Planning

The course Long Term Care Planning is being proposed in order to educate the public about the challenges and costs associated with the need for Long Term Care (LTC). As the population ages, people experience a wide array of both physical, functional, and/or cognitive issues, which in turn create the need for long term care. While many people consider the need for LTC to be most relevant to those 80+ years of age, there are unfortunately a significant number of people under the age of 70 who experience conditions which trigger the need for LTC as well.

Driver Education

This Maryland Motor Vehicle Administration (MVA) required course consists of 30 classroom hours and 6 hours of behind-the-wheel driving. The College's program adds value through interactive, student-centered classroom methodology and one-on-one, needs-based behind the wheel instruction. Students who satisfactorily complete the program are entered into the MVA portal, which enables them to take the driver's license test at the MVA. Montgomery College educates parents on how to manage their teen's learning to drive experience, beginning with parental involvement on the first day of class. The college expects a collaborative approach between parent and instructor(s) on managing this learning to drive experience. Students under 18 MUST be accompanied by mentor (parent, guardian, etc.) and all students MUST bring a valid learner's permit to the first day of class. If a student misses the first day of class, they cannot continue and must re-start the course at a later date. TWA

Driver Education with Additional Supports

Montgomery Colleges Driving School and its instructors are Maryland MVA licensed and certified. Our additional support instructors are dually certified in Special Education. This course, in a small classroom environment, prepares rookie drivers to test for a Maryland driver license. Our 36-hour course consists of 10 three-hour classroom sessions, and 3 two-hour individual sessions using our own cars. This course provides the exact same MVA curriculum as SFT-123 Driver Education, but with built-in supports. Students under 18 MUST be accompanied by mentor (parent, guardian, etc.) and bring a valid learner permit to Day 1 of the Driver Education class. If a student misses the first day of class, they cannot continue and must re-start the course at a later date. Montgomery College educates mentors on how to manage the learning-to-drive experience through our mentor/parental involvement expectations, our 12 driver readiness indicators with self-assessments, and a collaborative approach between mentor and instructor(s). Chinese

Chinese: Just Start Talking! *NEW*

Practical Chinese for New and Returning Learners Do you want to speak Chinese without spending months learning before you can actually use it? Start speaking from the very first class. Through real-life topics and specially designed speaking techniques, learn to turn even a small amount of Chinese into meaningful conversations. Instead of memorizing dialogue after dialogue, build on what you already know and learn to talk about life, personal interests, and what you really want to say. Designed for complete beginners, returning learners, and anyone who knows some Chinese but still finds it difficult to speak. No prior Chinese experience is required, and no textbook is needed. Just start talking-with your teacher and classmates! TWA

Chinese for Everyone: Learn Through Speaking and Songs *NEW*

Discover Chinese through conversation, music, and fun! This beginner-friendly course introduces practical, real-life dialogues used by native speakers to help you start speaking right away. Learn vocabulary and grammar naturally through interactive speaking and substitution practice. Each lesson features listening to and singing (okay to mute yourself) Chinese songs—both traditional favorites and modern tunes—to boost pronunciation, rhythm, and memory. Practice asking simple questions and talking about everyday life in a lively, supportive setting. While reading and writing characters aren't the focus, you'll get a brief glimpse into the beauty of Chinese pictographic writing. No prior Chinese experience is required, and no singing voice nor singing experience is needed nor required. TWA

EXPLORING CAREERS USING CAREER COACH

Find a career that suits you in 2 EASY steps!

Step 1.
Visit montgomerycollege.emsicc.com/

Step 2.
Select an occupation of interest to explore. Enter it into the Browse Careers field (or you can search all careers).
A list of careers will be generated. You can then filter these careers by Salary and Education level.

When searching, keep in mind:

- What is your occupation of interest?
- What is a typical entry-level wage? Median Wage?
- How many individuals are employed in our area in this occupation?
- How many annual job openings are estimated for this occupation?
- How many current job postingsare there?
- What are five primary responsibilities of this occupation as described in several job postings?
- What are five job skill requirements found in a variety of job postings?
- Are there any certifications mentioned as desirable or required in the job postings?
- What are three similar or related careers to the occupation you selected here?
- What are several related education and training programs that you could explore further?

ACADEMIC PROGRAMS AND COURSES

INSPIRING, ENGAGING, AND RELEVANT

Montgomery College offers more than 130 programs of study to enable you to achieve your goals. Our academic programs are designed to engage, inspire, and empower you to move forward. Are you a high school student looking to fulfill your early promise, or a high school graduate taking the next step? Are you an adult student looking to master a new discipline, or continue your training and grow your skill set in a specific field? Whether you are a transfer student or an international student, a military service member or senior student, MC has the program for you. Find out more about Montgomery College's Academic Affairs Division.

General Studies: a flexible degree path emphasizing transfer in one of four academic cores: Humanities, Arts, Communications, and Languages (HACL); Science, Technology, Engineering, and Math (STEM); Social Sciences, Administration, and Health (SSAH); or Integrated Studies (INTG)

PROVIDING OPPORTUNITIES, EMPOWERING YOU TO SUCCEED

Montgomery College is an academic institution that is committed to equal opportunity and fostering diversity among its student body, faculty and staff. Inquiries regarding Montgomery College's nondiscrimination compliance policies and procedures may be directed to Dr. Brenda Williams, Director of Employee & Labor Relations, Workforce Diversity and Inclusion, 240-567-5367.

Montgomery College provides a wealth of opportunities that empower you to move forward and achieve the skills you need to become successful—both academically and in life.

SPECIAL PROGRAMS

Montgomery College is home to several special programs designed to enhance our students' learning experiences and better prepare them to enter a career or obtain a bachelor's degree.

- The Achieving Collegiate Excellence and Success (ACES) targets Montgomery County high school students and guides them through completion of a four-year degree.
- The American English Language Program prepares non-native speakers of English for successful college work in the United States.
- The Global Humanities Institute brings the world into our classrooms and helps prepare students for the global economy.
- The Gudelsky Institute for Technical Education prepares students for careers in automotive technology, building and construction, computer publishing, and other technical fields.
- The Health Sciences Institute prepares students for various health care careers, from diagnostic medical sonography to surgical technology.
- The Hillman Entrepreneurs Program supports and develops aspiring entrepreneurs, leaders, and scholars.
- The International Education and Study Abroad Program provides opportunities to study in other countries.
- The Paul Peck Humanities Institute facilitates internships at the Library of Congress, Smithsonian Institution, and United States Holocaust Memorial Museum.

Services for Students with Disabilities

Montgomery College complies with the provisions of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) of 1990 and the Americans with Disabilities Act Amendments Act (ADAAA) of 2009. The college provides accommodations, access to facilities, programs, activities, and services for qualified students with documented disabilities. Accommodations are determined on a case-by-case analysis based on information provided by a qualified professional.

Students with disabilities are encouraged to contact Disability Support Services as close to admission to the College as possible for accommodations and support services. To ensure timely services, students are encouraged to provide at least a two-week notice as some accommodations are time sensitive.

- Germantown: 240-567-7770
- Rockville: 240-567-5058
- Takoma Park/Silver Spring: 240-567-1480

If necessary and appropriate, students may register for courses or activities prior to or while going through the support services process but are expected to comply with required deadlines to ensure that appropriate accommodations can be secured.

Any student who may need assistance in the event of an emergency evacuation must identify to Disability Support Services; guidelines for emergency evacuations are at: montgomerycollege.edu/dss/evacprocedures.html.

Under provisions of the Americans with Disabilities Act, this material is available in alternative formats by contacting the Disability Support Services Office at 240-567-4118.

A Sorenson Video Relay Service with a large Monitor is available in the Rockville, Takoma Park/Silver Spring and Germantown Campus libraries.

Students Under 16

Students must be 16 or older, or have permission of the program area by the start date of class, in order to participate. Call 240-567-5188 for more information.

Co-Listed Classes

Classes marked with this code **(CoL)** are co-listed. They are offered so that students may register either for credit or continuing education (noncredit) status. Co-listing gives students an option to choose the best path for their educational needs. Each section includes both credit and noncredit students. For students seeking credit classes, please consult the credit course schedule. The expectations for attendance, participation, and effort are the same for all students. Any non-credit student who enrolls in a co-listed class must be prepared to document that they meet the applicable credit class assessment/prerequisite requirements upon request and in specific classes, the student will be required to be assessed prior to enrollment. Instructors will announce policies concerning class activities. If you have questions about readiness/assessments, please contact the listing program/department.

If you have registered as a noncredit student in a co-listed course and you wish to change from noncredit to credit status, you will have one day after the class has begun to do so. After that, you are committed to your path as a noncredit student for the remainder of the course. If the course has a required assessment level to be a credit student, you must first complete the assessment testing and meet the appropriate assessment level before you can change to credit status. Dates for co-listed classes may reflect the actual credit term dates. Please check the day on your calendar for the actual start date of your class.

Parking Regulations

You must obtain a virtual parking permit to park on campus and other College properties. Please visit **montgomerycollege.edu/parking** for directions on how to obtain a virtual parking pass.

Parking for Workforce Development and Continuing Education (WDCE) Students

When registering in-person at any WDCE Customer Service location you will receive a temporary (30-day) parking permit. If the duration of your class is more than 30 days, you must log in to the Parking Portal using your MyMC information. Click on Get Permits, then follow the instructions given.

If you need assistance, please email Parking@montgomerycollege.edu or visit montgomerycollege.edu/about-mc/campuses-and-locations/transportation-and-parking.html

Textbooks and Materials

Purchase textbooks and/or course materials at the Campus where your class will be held. For classes held at the Distance Education and Learning Technologies (DELT), and off-Campus MCPS locations, please use the Rockville Campus MC Books & More; for classes at Westfield South use the Takoma Park/Silver Spring Campus MC Books & More. You do not need to go to a Campus store to make your purchase. You may purchase your textbooks/course materials online to have your purchases mailed to you. To order online or to find out more details about purchases, buybacks, returns, contact information, ebooks, rentals, and more, visit the College's MC Campus Store and Distribution Hubs website at montgomerycollege.edu/bookstore or call the main number 240-567-5302.

A USB flash drive/memory stick is required for ITI classes unless otherwise specified. Please bring to first class.

For information specific to WDCE, please visit our reference page at info.montgomerycollege.edu/offices/business-services/mc-campus-store.html/

Residential Policy

The following are general guidelines taken from the College policy on residency for tuition purposes. A complete copy of the policy is available in the Montgomery College Catalog.

A. Students attending Montgomery College will pay tuition according to their residency classification.

   To qualify for in-state tuition, a student must be a U.S. Citizen, Permanent Resident or have a qualifying Visa status.

B. To qualify, for tuition purposes, as a resident of the state of Maryland, legal domicile must have been maintained for a period of not less than three months prior to the first regularly scheduled class for the semester; unless you are a member of the Military covered under HB935.

C. The domicile of a person registering in a noncredit course at Montgomery College shall be considered as a person's permanent place of abode, where physical presence and possessions are maintained, and where he/she intends to remain indefinitely.

Refund Policy

Refunds are paid at 100% for classes canceled, dropped online, or in person (using a Drop Form), prior to the start date of the class. Refunds are also paid at 100% if class is dropped prior to the Refund Date printed on your registration confirmation. DO NOT drop classes online on or after the day the class begins; you will not receive a refund. ESL Noncredit students must call 240-567-7262 for refund/withdrawal instructions. Refunds for open enrollment classes will go to the registered student of record. For the Drop Form and more information, visit montgomerycollege.edu/workforce-development-continuing-education/registration-information/refund-wdce.html

Transfer Policy

To transfer from one CRN to another CRN of the same course, a letter must be received in the Admissions, Records, and Registration Office, Montgomery College, 51 Mannakee Street, Rockville, MD 20850 before the beginning date of both CRNs of the course. If you have enrolled in a co-listed course you will have only one day after the class has begun to transfer. After that, you are committed to your path for the remainder of the course. If the course has a required assessment level to be a credit student, you must first complete the assessment testing and meet the appropriate assessment level before you can change to credit status.

Tuition Waiver

Only noncredit courses designated "tuition waiver applies" in each publication will be available for tuition waiver. This statement appears in each applicable course description. Only tuition is waived; required fees must be paid by the student. Documents must be received at time of registration.

Senior Tuition Waiver (TWA): Maryland residents 60 years or older by the start date of the class may have tuition waived.

Disability Tuition Waiver: Please go to montgomerycollege.edu/wdce/register/disabilitywaiver.html for information.

National Guard Tuition Waiver: If you are currently a member of the Maryland National guard and are enlisted for at least a 24-month period, you are eligible for a 50 percent tuition waiver. You must submit proof of such from the adjutant general's office.

GI Bill®: If you are interested in using VA benefits for a Workforce Development and Continuing Education class please contact va@montgomerycollege.edu for additional information. *Attendance policy differs for each course. Please contact your professor.*
GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA).
More information about education benefits offered by VA is available at the official U.S. government Web site at benefits.va.gov/gibill/

Tuition Installment Plan

The Tuition Installment Plan (TIP) may allow students to pay registration charges in several payments; some restrictions apply. Each term is independent and must be enrolled in separately. A nonrefundable fee is required to participate in TIP. Students must register online during the TIP enrollment period prior to the close date indicated for each plan. Only courses with a (TIP) code have a tuition installment plan available. For more information go to montgomerycollege.edu/wdce/registerops.html
