High-quality noncredit courses are available in numerous program areas including information technology, small business and management, technical training, certification and licensure preparation, financial planning, real estate, early childhood education, health sciences, professional development, writing, English as a Second Language, human resources, supervision, and more. Special programs are available for older adults, adults with developmental disabilities, and Spanish speakers. Course offerings change continuously to reflect the ever-changing needs of the businesses and communities we serve. As you peruse the programs and services in this publication, we're sure you'll find a wide variety of offerings suited to you.

In addition to classes for individuals, we contract with many businesses and government agencies to provide customized training for their employees. These classes are held at places of employment or can be offered at WDCE sites throughout the county.

What's Happening

Summer 2021

Visited our website often for up-to-date course information.

Most Summer 2021 classes will be held online through Distance Learning or Structured Remote teaching for the entire semester. Decisions to move into future phases will depend on state and county guidelines. See full details of the plan and the phases, including resources for students, employees, and the community, at MC Resilient: www.montgomerycollege.edu/resilient-mc/index.html.

Distance Learning (DL) are offered completely online and allow students to learn independently, on their own schedules, as they meet specific deadlines and complete assignments. Instructors guide students’ learning with lessons, activities, and feedback through a Blackboard course site.

Structured Remote (SR) are scheduled on specific days and at specific times. Students meet as a class remotely through Zoom or Blackboard Collaborate; instructors will tell students which software to use. Students complete reading and assignments according to the course schedule. Class sessions take place in real time, and the instructor leads course sessions.

Hybrid (face to face & DL or SR) are listed in the course schedule with specific times and locations. Some meetings will happen online via structured remote or distance learning along with some on-campus meetings. Note: on campus meetings will be reevaluated closer to spring break.

Course in Building Trades, Health Sciences, and Workforce Technologies may meet on campus. Safety measures will be in place to protect students and employees. If you are required to come to campus, follow the Health and Safety Guidance found on the web at: https://www.montgomerycollege.edu/coronavirus/return-to-campus-health-safety.html.

More information on instruction types can be found on the web at https://www.montgomerycollege.edu/coronavirus/student-guidance.html#instruction.

World Languages

Textbooks for World Language Classes

Most world language classes with a course code beginning with ‘LAN’ require textbooks. Many texts are used for more than one year of study. Text costs are in addition to course fees. You may purchase your book through the Montgomery College Bookstore. Go to www.bkstr.com/montgomerycollege Store/ home for more details about purchasing, buybacks, returns, contact information, etc.

World Language Students: Not sure of your level?

Ask yourself: If I am in a situation where I must speak the language, how well am I able to understand and be understood? Then read through the course descriptions and register for the level that seems most appropriate. When you go to the first class you may confer with the instructor and then transfer to a more appropriate level if necessary. If you need more assistance, contact Laura Weihrauch at laura.weihrauch@montgomerycollege.edu or 240-567-1862.

What’s Happening
Summer 2021

Visited our website often for up-to-date course information.
Most Summer 2021 classes will be held online through Distance Learning or Structured Remote teaching for the entire semester. Decisions to move into future phases will depend on state and county guidelines. See full details of the plan and the phases, including resources for students, employees, and the community, at MC Resilient: www.montgomerycollege.edu/resilient-mc/index.html.

Distance Learning (DL) are offered completely online and allow students to learn independently, on their own schedules, as they meet specific deadlines and complete assignments. Instructors guide students’ learning with lessons, activities, and feedback through a Blackboard course site.

Structured Remote (SR) are scheduled on specific days and at specific times. Students meet as a class remotely through Zoom or Blackboard Collaborate; instructors will tell students which software to use. Students complete reading and assignments according to the course schedule. Class sessions take place in real time, and the instructor leads course sessions.

Hybrid (face to face & DL or SR) are listed in the course schedule with specific times and locations. Some meetings will happen online via structured remote or distance learning along with some on-campus meetings.

Note: on campus meetings will be reevaluated closer to spring break.

Course in Building Trades, Health Sciences, and Workforce Technologies may meet on campus. Safety measures will be in place to protect students and employees. If you are required to come to campus, follow the Health and Safety Guidance found on the web at: https://www.montgomerycollege.edu/coronavirus/return-to-campus-health-safety.html
