Driver Safety

Driver Ed Learner Permit Prep course: Preparing for and passing the Maryland Learner's Permit test can be a difficult task for many students. However, there is a Learner's Permit Prep course available that is designed by a special educator to specifically support students with mild to moderate learning disabilities. The course includes various activities, computer exercises, and practice tests that can help students prepare for the Maryland Learner's Permit test. It is important to note that the Maryland Learner's Permit is a prerequisite for Driver Education course, but taking this course is not mandatory.

Driver Education Class: This Maryland Motor Vehicle Administration (MVA) required course consists of 30 classroom hours and 6 hours of behind-the-wheel driving. The College's program adds value through interactive, student-centered classroom methodology and one-on-one, needs-based behind the wheel instruction. Students who satisfactorily complete the program are entered into the MVA portal, which enables them to take the driver's license test at the MVA. Montgomery College educates parents on how to manage their teen's learning to drive experience, beginning with parental involvement on the first day of class. The college expects a collaborative approach between parent and instructor(s) on managing this learning to drive experience. Students under 18 MUST be accompanied by mentor (parent, guardian, etc.) and all students MUST bring a valid learner's permit to the first day of class. If a student misses the first day of class, they cannot continue and must re-start the course at a later date.

Driver Education with Additional Support: Montgomery Colleges Driving School and its instructors are Maryland MVA licensed and certified. Our additional support instructors are dually certified in Special Education. This course, in a small classroom environment, prepares rookie drivers to test for a Maryland driver license. Our 36-hour course consists of 10 three-hour classroom sessions, and 3 two-hour individual sessions using our own cars. This course provides the exact same MVA curriculum as SFT-123 Driver Education, but with built-in supports. Students under 18 MUST be accompanied by mentor (parent, guardian, etc.) and bring a valid learner permit to Day 1 of the Driver Education class. If a student misses the first day of class, they cannot continue and must re-start the course at a later date. Montgomery College educates mentors on how to manage the learning-to-drive experience through our mentor/parental involvement expectations, our 12 driver readiness indicators with self-assessments, and a collaborative approach between mentor and instructor(s).
