Investor's Club: Investing 101

Ready to level up your money game? You'll dive into the world of stock investing using a real-time simulator, no actual money needed! Over five sessions, you'll learn how your cash can grow through compound interest, build a custom stock watchlist with Yahoo Finance, and track your picks like a pro. You'll open mock investment positions and start managing your own portfolio, learning how to assess risk, diversify, and set financial goals. In the final session, you'll close your trades, calculate your returns, and use the Rule of 72 to see how long it would take for your money to double. This course is all about building confidence, thinking smart, and planning for your financial future. Whether you're curious about Wall Street or just want to make smarter money moves, this is your chance to explore investing in a fun, low-pressure way. In partnership with Diapers 2 Deposits, Inc.
