High Quality Summer Camps for Grades K–12

Registration is Open

montgomerycollege.edu/wdce | 240-567-5188
Dear Families,

Welcome to Montgomery College Youth Programs Summer 2024! The big news for this summer is: The Cooking Camps are Back! We missed having them last year while the building was undergoing renovations. We know you are excited too. For new families, please note that these camps typically fill within 48 hours of registration opening. We do not have waiting lists, so register early if interested.

We continue to expand the number of camps that allows your child to participate in topics that may help with the question "What do I want to be when I grow up?" We know that by the 8th grade, some students in MCPS select a high school based on the career they are most interested in. Before committing to this, we want to give students the opportunity to explore different options in a low-stakes environment. Children can participate in a camp for one or two weeks and essentially ‘try out’ the possible career, without committing to a whole summer. These camps are taught by MC faculty and experts in the respective field of study.

MC Youth Programs now has 15 camps approved for SSL hours. We work with MCPS to develop camps that are fun while serving the community. The new camps this year are based on happenings in Montgomery County. Psych: What it All Means has been revised to include community awareness and advocacy.

Based on family feedback, we changed the age that students can sign themselves in and out. Starting Summer 2024, students entering grades 6 and older can sign themselves in and out. We understand that this will work for some families and not for others. As parents/guardians, we are relying on you to determine if your child is mature enough for this responsibility. The permission form can be found in your child’s CampDoc profile. See the CampDocs description in this brochure for additional information.

Please do not hesitate to contact our Program Coordinators: Sharon Wolfgang and Majose Murguia, or myself with any questions or concerns. We appreciate the time you take to reach out to us.

Thank you,
Mary Mukherjee
Senior Program Director
Montgomery College Youth Programs

School Year Youth Programs at Montgomery College!

Providing high-quality courses that are educational, engaging, and fun!

Enrichment programs for youth grades K–12

For a full list of our school year programs and up-to-date information, please visit
www.montgomerycollege.edu/youth.
Student Service Learning (SSL) Hours

Montgomery College Youth Programs is proud to offer the following course approved by MCPS for Student Service Learning (SSL) hours:

- Biodiversity in Montgomery County
- Childcare 101
- Controversial Discussions: The Psychology of Conversation
- Forward-Thinking Interior Design
- History in Your Backyard: Montgomery County
- Intro to Innovation
- Leveling Up to Lead
- Psy: What it All Means
- Social Action Songwriting
- Summer SLAM
- The Social Innovators Camp
- Traveling History: The American Presidents
- Traveling History: The Fight for Civil Rights
- Traveling History: The Supreme Court of the United States
- Writing for the Community

Students must attend all days of the camp and complete any project outlined in the course. On the last day of camp, students will receive a signed Student Service Learning (SSL) hour form. When school resumes in August, students must submit this form to the SSL coordinator at their school. MC Youth Programs does not submit the forms to the individual schools.

Supervision During Lunch

Students attending either full-day programs or both morning and afternoon half-day programs will receive supervision during lunch at no additional cost. Students are responsible for their lunch and should bring non-perishable items daily. Refrigeration is not available. The cafeteria and vending machines are available, but the lines are often long. For most programs the lunch session runs from 12–1 p.m. Students are escorted from their morning classroom to lunch, supervised during lunch, and then escorted to their afternoon class. Students attending only one half-day program are not eligible for lunch supervision services. **NOTE: There is no lunch supervision for students in only a half-day camp. The College cannot provide an environment free of foods containing nuts.**

Before Care and After Care for Summer Youth Programs

Children are provided with a safe and relaxed environment in which to enjoy a variety of activities. Staff continuously strive to keep the program activities flexible and appealing. Registration is required. SPACE IS LIMITED! *See schedule on page 13.*

How to Read a Course Description

For further information please contact Youth Programs at 240-567-7264 or 240-567-7917 or access the Montgomery College Youth Programs website: [http://www.montgomerycollege.edu/youth](http://www.montgomerycollege.edu/youth).

**Course Title**

**Advanced Robotics**

**Course Description**

The robots are here! Take charge of your future by controlling robots to solve unique creative challenges with your team. Program your robots in the Python coding language using visual and text-based coding tools. Explore the scientific method to observe, plan, test, and modify your robotic approach to problem-solving. No prior experience is required. You will work in pairs or teams for most of the program. In partnership with Black Rocket Productions.

**Course Number**

Course: YOU937

**Course Hours**

15 Hours

**Tuition and Fees**

$155 + $50 fee = $205; NMR add $25

**Campus**

Rockville Campus

**CID #**

CID#: 15082

**# of Sessions**

5 Sessions

**Days of Week**

M T W R F

**Dates**

7/17-7/21

**Times**

9 a.m.-12 p.m.

**Ages**

Ages 13-17

**SSL** = Student Service Learning Hours

**CID** = Class ID Number

**NMR** = Non Maryland Resident (See page 40 for details.)

**GT** = Gifted and Talented. Courses marked with **GT** are for Gifted and Talented students and require additional signatures for enrollment.

### 3D Game Design with Unity
Are you ready to take your game design skills to another level? With Unity, an industry-grade design software, aspiring game designers will learn level editing, 3D modeling, impactful gameplay creation, as well as how to utilize scripts and variables. Student-created games will be available on a password protected Black Rocket website to share with friends and family. Returning students can create more advanced projects that build on previous years. Students will work in pairs or teams for in-room programs in a COVID safe way. Online classes provide a more independent experience, but with an emphasis on peer to peer feedback to enhance the creative process. In partnership with Black Rocket Productions. For online programs only, please check the technical specifications needed at home at: [https://blackrocket.com/online-tech-specs](https://blackrocket.com/online-tech-specs).

**Course:** YTH412  
**12.5 Hours**  
$145 + $45 fee = $185; NMR add $25

### A.I. Adventures—Intro to Machine Learning **NEW**
Explore the world of artificial intelligence to design fully interactive games and experiences using cutting-edge technology. This program combines artificial intelligence with coding to create an unforgettable learning adventure. You will construct machine learning models that use image and text recognition within block-based coding software to build a portfolio of projects. Your projects will be available on a password-protected Black Rocket website to share with friends and family. You will work in pairs or teams for most of the program. In partnership with Black Rocket Productions. Compatible with MAC, Windows, and Chrome OS. For online programs only, please check the technical specifications needed at home at: [https://blackrocket.com/online-tech-specs](https://blackrocket.com/online-tech-specs).

**Course:** YTH613  
**15 Hours**  
$155 + $50 fee = $205; NMR add $25

### Advanced Robotics
The robots are here! Take charge of your future by controlling robots to solve unique creative challenges with your team. Program your robots in the Python coding language using visual and text-based coding tools. Explore the scientific method to observe, plan, test, and modify your robotic approach to problem-solving. No prior experience is required. You will work in pairs or teams for most of the program. In partnership with Black Rocket Productions.

**Adventures in Art History**  
**NEW**

Come learn about artists and create in using their techniques! You will explore different influential artistic movements in art history (Impressionism, Post Impressionism, Pop, Washington Color School), as well as receive in-depth information on the lives of famous artists, with an emphasis on lesser-known artists of color and female artists whenever possible. You will start the day with a short age-appropriate story, video or slide show about an artist followed by a robust discussion. Then you will dive into an art project modeled after the style of the artist or movement studied that day. Media will include tempera paint, watercolor, pastels/oil pastels, and markers. The class will conclude with group time where you can share your thoughts, participate in music and movement and/or games.

Instructor: Jennifer Wright

**Course: YTH618**  
15 Hours

**Arduino Introduction**  
**NEW**

Come learn the basics of building simple electronic circuits programmed with Arduino, a physical computer platform based on a microcontroller board with its own program development environment. You will learn the beginnings of Arduino C programming language, which is based on C. Learn how to create a simple breadboard circuit, then add sensor inputs and output actions that you will program. By the end of the course, you will build your own simple project to take home. Examples of past projects are mood lights, electronic dice, and motion alarms. Instructor: Dr. Monica Mellini, MC Faculty.

Around the World
Come on a culinary journey throughout the world. Each day, you will explore a different part of the world learning about the culture, history, and food! You will learn a new cooking technique or method and apply it to the cuisine of the day. Monday: Italian, Tuesday: French, Wednesday: Latin, Thursday: Asian, and Friday: Fusion. You will not only learn how to make recipes from these parts of the world, but will also research the history, cultures, languages, and customs. On the last day, you will be encouraged to develop recipes of your own, in order to showcase how influences from different cultures can be used to create a whole new type of cuisine called Fusion. If you love trying new foods, working with exotic ingredients, and learning about other cultures, this is the camp for you! MC Faculty, Marriott Culinary Arts
Course: YTH053 25 Hours $325 + $70 fee = $395; NMR add $25
Rockville Campus
CID#: 15228 5 Sessions M T W R F 7/22-7/26 9 a.m.-3 p.m. Ages 15-16

Art Madness Camp NEW
Look around you, art is everywhere! You can find art while digging in the dirt, looking up at the sky, watching a storm and while relaxing at the beach! So many wonderful things can be created when you set your imagination free. Everything we make is fun: sunset silhouettes, Aboriginal dot art, beach drawings, sculptures and 3D art. We learn about soil layers, sunlight colors, thunderstorms, succulent plants, stained glass and much more. Have a blast playing with colors, lines, shapes, textures and forms to create wild art! In partnership with Abrakadoodle, Crisscross Applesauce LLC.
Course: YTH625 15 Hours $250 + $40 fee = $290; NMR add $25

Artificial Intelligence
The applications of artificial intelligence are endless—and can be overwhelming. In this AI camp, we will examine fields such as health, economics, music, and engineering through the lens of artificial intelligence. We will delve into the inner workings of interpretable and black-box models including K-Nearest Neighbors classification, regression, K-Means clustering, and decision tree methods. We will also cover important ethical issues including algorithmic bias and the pitfalls of overfitting and underfitting. A typical day will be filled with coding challenges, in-depth lectures, hands-on practice, and projects where we will train and test our own machine learning models. Artificial intelligence is a field that is constantly growing and evolving. It is an exciting time to be working in AI and we can’t wait to see what you create during your time with us. We hope you will be inspired to continue to study machine learning and the broader field of computer science after the program. In partnership with Yang Academy
Course: YTH620 60 Hours $1.080 + $100 fee = $1.180; NMR add $25

7/29-8/2 1-4 p.m. Ages 6-10

Biodiversity in Montgomery County NEW
Are you curious about the terrestrial and aquatic ecosystems in our own backyards? In this camp, you will get out in the environment to evaluate the health of the biota surrounding Montgomery College. You will explore the reasons for biodiversity loss, particularly when it pertains to pollution and invasive species in our area. How do invasive species in our area impact our community both economically and environmentally? You will research an endangered species, and create an informational poster or pamphlet. You will also learn how to advocate locally, and write a letter to your political representative about one aspect of biodiversity loss in our area.

MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. Instructor: Leah Bierly, MCPS teacher

Course: YTH604 15 Hours
$159 + $75 fee = $234; NMR add $25

7/15-7/19 9 a.m.-12 p.m. Ages 14-17

Biology
For students who will take biology or honors biology in the upcoming school year. Topics from major branches of biology will be covered: ecology, cell biology, genetics, and impact modern technology has made in the field of biology. In partnership with Yang Academy

Course: YOU897 15 Hours
$225 + $30 fee = $255; NMR add $25
Rockville Campus
CID#: 15046 5 Sessions M T W R F
7/22-7/26 1-4 p.m. Ages 14-17

Bloomable Engineering
In this camp, art is inspired by nature, with a little help from technology. You will design and build a flower from a color changing LED and craft items. With a servo motor, movement is added to the stem or petals. The composition is programmed and powered using the Arduino Nano, a member of the Arduino family of microcontroller boards that is small enough to fit inside a flower pot. You will be provided with code that you can individualize for your unique creations and upload to the Nano. After the Nano receives its code, the project will run from a hidden battery. Hot glue will be used to secure components, circuit connections, and decorations. This is a great camp for those who want to jump into Arduino, and for those with some background who want to learn more. Instructor: Dr. Monica Mellini, MC Faculty

Course: YTH557 15 Hours
$169 + $55 fee = $224; NMR add $25

Budding Chef Advanced
Calling all graduates of our Budding Chef Camp! Have you participated in our Budding Chef Camps in the past and looking to apply those skills to a next-level culinary challenge? Are you an experienced cook who is interested in applying your skills to new recipes and culinary techniques? Budding Chef Advanced builds on the foundations learned in our Budding Chef Camp and then some! Come ready to learn new cooking techniques, experiment cooking with unique ingredients, and learn about recipe construction, calculation, and menu design. We will explore plant-forward cuisine, create pasta from scratch, work with various meat cuts and apply different cooking techniques to design elegant dishes fit for award-winning restaurant menus. Campers must have knowledge of basic knife skills and cuts, cooking techniques, and ability to follow multiple-step recipes. MC Faculty, Marriott Culinary Arts

Course: YTH458 25 Hours
$325 + $70 fee = $395; NMR add $25
Rockville Campus

Budding Chef Workshop
Want to be on the next season of “Top Chef Jr.”? Come and learn the basics! In this five-day session, you will learn all of the essential kitchen skills needed to master the fundamentals of cooking. We will cover all of the basics of cooking such as how to handle knives, how to read and follow recipes, measuring and mixing, and the importance of kitchen safety. Each day, you will learn how to make a variety of recipes from the following categories: appetizers, salads, entrees, and desserts. You will also learn how to choose recipes in order to create and design menus of their own. On the final day, you will prepare a menu of your favorite recipes from each category, as if you were opening a restaurant of your own! Instructor: MC Faculty, Marriott Culinary Arts
Course: YTH641  15 Hours
$195 + $65 fee = $260; NMR add $25

Childcare 101
Are you ready to make an impact in the community by learning how to positively influence children? Are you ready to make a change within our community by volunteering your services for workshops at your local school, church, library? In this camp, you will learn the foundations of child development, behavior management and activity development. You will also learn how to prepare and market yourself, including interview skills. You can use these skills to approach schools and organizations that provide childcare during parent training, workshops and meetings. All aspects of safety, for yourself and for the children, will be discussed. The cost of the camp includes certification in CPR and First Aid. In addition, careers in early education will be explored, including college pathways. A field trip either virtually or in-person to the Montgomery College Early Education Center located on the Germantown campus will allow you to observe early education in action. On the last day of class, parents are welcome to attend during the last 30 minutes for a seminar on safety for junior childcare providers. Note: the field trip is subject to change due to COVID protocol. MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. Instructors: Ramona Johnson (Rockville and Takoma Park/Silver Spring) and Christina Shawver (Germantown)
Course: YTH539  30 Hours

Code Breakers
Calling all future coders, programmers, and designers! Learn the basics of coding languages like HTML, JavaScript, and CSS through a series of web projects and design challenges each day and be on your way to becoming the next tech star! Whether you want to be a silicon valley CEO or the high school student who just made $1 million dollars for programming in their bedroom, this course has the essentials you need to begin your journey. Projects will be available on a Black Rocket website to share with friends and family. Returning students can create more advanced projects that build on previous years. Students will work in pairs or teams for in-room programs in a COVID safe way. Online classes provide a more independent experience, but with an emphasis on peer to peer feedback to enhance the creative process. For online programs only, the tech specs found here: https://blackrocket.com/online-tech-specs. Compatible with MAC and Windows OS. In partnership with Black Rocket Productions.
Course: YTH658 15 Hours
$155 + $50 fee = $205; NMR add $25

Ages 14-17

**Controversial Discussions: The Psychology of Conversation**
The landscape of the United States seems more polarized than ever across many differing hot button topics. In a world of two second sound bite arguments, political pundits, and rhetorical strategies to obtain points rather than the truth, some wonder how it is possible to have conversations amidst a diversity of opinions. How is it that we create a culture of appropriate controversial discussions but also to evaluate claims critically? How do we engage in conversation without the trappings of name-calling or shouting? This class attempts to navigate this tightrope and digs deeper into the human ego, its insecurities, and why it is the case that progress cannot be made in the key issues that concern us most. This class will cover an introduction to the psychology of conversation, methods of interviewing and questioning, common errors in logic and reasoning, and research skills related to hot-button topics. Learning methods and practices for creating and engaging in constructive conversations is crucial for increasing community health and cooperation. By the end of the course, you will have produced a fact sheet which details an unbiased snapshot of the issue and the different perspectives associated with it. Additionally, you will create a brochure of the topic, which acts as a guide to help facilitate constructive conversations.

**MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. Instructor: Cedric Price**

**Course:** YTH389  
15 Hours

**Creative Inspiration NEW**
Art comes from all types of inspiration. Look up at grand trees reaching for the sky! Look down at tiny crawling bugs! Look all around at flowing water, bright colors, mouth-watering fruit, and more! These things will inspire you to construct miniature trees of life and draw Mondrian-style trees—with a twist! You will examine ladybugs and other bugs in their leafy habitats, and create fruity, patterned, mixed media masterpieces inspired by masters like Paul Gauguin. You will learn about Outsider Art—creative works by people who have had little or no formal training in art but inspire us nonetheless. In partnership with Abrakadoodle, MsSTB1Creations, LLC

**Creative iPhone Photography**
Get ready to up your photography skills. This dynamic course will teach you how to take creative photos with your iPhone (or any camera.) The iPhone is a powerful photography tool, with many features rivaling a professional camera. You will learn to master these tools. Remember, technical tools are nothing without a creative eye. There will be a major focus on creativity, how to make your photos more interesting, more unique, and personal—indeed, you will learn to see. Travel, Landscapes, Selfies, People, Panoramas, Black and White, Video, even Slow-Mo and Time Lapse will all be covered in this course. Instructor: professional photographer Robert Severi.

Cupcakes, Cakes and More
Baking is just the beginning in this exciting camp! For those looking to add some originality to their next batch of cupcakes, this is the camp for you! Throughout the week, you will learn how to bake several types of cakes, make a variety of frosting from scratch, and put it all together like professional Pastry Chefs. You will learn how to elegantly pipe and creatively decorate both cakes and cupcakes. The only thing that you need to bring to this camp, is creativity! MC Faculty, Marriott Culinary Arts

Desserts, Desserts!
From ice-cream to pies, come learn to make the best part of any meal! Learning how to make cookies from scratch is just the beginning in this exciting camp. Students will learn how to use only natural ingredients to make the most delicious desserts. Monday: Cookies, Tuesday: Ice-cream, mousse, and whipped cream, Wednesday: Breads and rolls, Thursday: Pies, Friday: Cakes. Students will also learn how to make desserts that are dairy-free and gluten-free! Each day, students will work in teams, create a name for their team, and a unique name for the dessert that they will be making. If you are a budding baker who would love to open up their very own bakery one day, this is a great place to start! MC Faculty, Marriott Culinary Arts

Electronic City Updated!
Let technology bring your creation to life in this project-based course. The technical side of circuit building and programming meets your creative side when you design and build your own city. Locate your electronic city in the setting of your choice: megatropolis, suburbia, vacation village—even Mars! Design the layout and build elements for your city from craft materials. And don’t forget transportation, lighting and sound! Program an electronic circuit to equip your city according to your creative vision, e.g., by adding a traffic light system or a light show. Learn to use Arduino controllers with breadboards, LED lights, fans, resistors, and push buttons to bring your city to life. This is a great intermediate course for learners who know a little about Arduino or programming and want to create a larger demonstration project to take home. Instructor: Dr. Monica Mellini, MC Faculty.

Financial Tips and Tricks: Get Ready for Adulthood
Prepare for the real world by learning how to earn money, the art of budgeting, living on your own, banking services, credit cards, cars and loans, consumer awareness, saving and investing, and decision making. Learn these life skills before you make painful and life-changing mistakes as an adult! You will learn about responsibility, citizenship and finances using a holistic approach. The middle school course focuses on all of the above topics. For those in the high school level course, you will dive deeper into the topics, and put your new skills into practice as you prepare to live on your own. You do not need to complete the middle school course before enrolling in the high school course. Instructor: Melissa Mazar

Forensic Crime Lab Technicians  
New
It’s your turn to catch a killer! Become a forensic crime lab technician as you learn to analyze and interpret a variety of crime scene evidence. You will identify hairs from human and animal sources and look at your own hair under the microscope. Test your skills with fiber analysis as you try to identify unknown fabrics. Presumptive blood tests and blood typing will give you clues to a person’s identity. Learn about toxicology as you become a forensic chemist. No matter how neat your handwriting is, you can learn to match handwriting and ink samples. Finally, you will end the week by solving a murder using all of your new skills. Instructor: Heather Ward, MCPS Teacher

Forward-Thinking Interior Design  
Design is everywhere! Explore forward-thinking interior design. This class is a hands-on, project-based course which allows you to become a spatial problem solver and help develop design solutions with your peers. You will explore room design, color interpretations, cost estimating, and interviewing skills. This is a fast-paced crash course in interior design where technical knowledge is applicable to various design fields. This course is also constructed to provide an overview of what is expected in the design field. We will discuss current energy innovations, Smart Home technology, Universal design, green design, accessibility and current trends in the industry. You will also explore design as it applies to different segments of the community. For example, planning a kitchen or bathroom for a person with physical challenges, or designing a shelter for various groups, such as women and children.  
MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. Instructor: Julie Priddy ASID, CMKBD, MC faculty member.

History in Your Backyard: Exploring Montgomery County
Do you ever wonder what personalities and events helped formulate what we witness today in our communities? Digging into the history of Montgomery County, discover what a locate leader looked like and what events determined the culture make up of our home towns. What role did slavery play? How were neighborhoods created, and most importantly, who were the people who lived in them? Come explore topics such as the racial makeup of Chevy Chase in the early 20th century, the history of the Du-Drop Inn in Emory Grove, explore the Agricultural Reserve and the stories it preserves and more. You will research a lesser-known individual associated with Montgomery County to understand their impact on the community. You will then create a presentation that is your call-to-action. How will you take what you learn to be an advocate in your community? MCPS has approved this camp for 10 Student Service Learning (SSL) hours. History’s Mysteries: Curious Clues, Cold Cases, and Puzzles from the Past NEW
After over 60 years, the mystery of the escapees of Alcatraz still endures—but what actually became of the convicts? What really happened to the Lost Colony of Roanoke? Who really killed our 35th president John F. Kennedy? This exciting new camp will cover history’s heavy-hitting, head-scratching mysteries, including the Bermuda Triangle and the legend of Bigfoot. You will research in a computer lab, learning about primary and secondary sources. Chock-full of cool photos, slide shows, fun facts, and spine-tingling mysteries, this camp will help you to explore these mysteries and crack the curious clues in the hope that someday, someone—maybe you—might find the answers. Are these actual mysteries, or are they just hyped-up stories? Instructor: Robert Barnes

Intro to Innovation Camp

Have you ever wanted to start a business of your own, such as dog walking, lawn mowing, selling your own artistic creations, or even marketing an app you are creating? If you answered yes to any of those, then this camp is for you! Learn the foundations of turning your business idea into reality by exploring examples of existing businesses founded by young innovators like you. In this camp, you will practice critical thinking skills, learn fundraising and marketing techniques, create a business plan, and deliver two stunning presentations. In addition, you will learn how different innovations can benefit the community at large. In teams, you will develop an innovation to support a community need and present your idea to the class. Then, team up or develop your own individual idea and present your innovation to a panel of judges. MCPS has approved this course for 5 Student Service Learning (SSL) hours. Instructors: Southern Management Leadership Scholars.

It’s a Museum City

Explore the most remarkable art museums and exhibitions in Washington, DC, let alone the world! Travel by metro to the cultural wing of The Hirshhorn, The Renwick, The American Museum of Natural History, The National Building Museum, including access to this year’s special art installation, and, finally, back to the Mall to the Air and Space Museum. We will discuss cultural themes and elements of art such as color, texture and shape, and take advantage of museum educational programs. Bring your lunch and wear your walking shoes as we will visit one museum a day for a week. In the event of museum schedule changes, we may consider visiting other museums, such as the National Museum of African American History and Culture, The Museum of American History, or The National Gallery of Art. Instructor: Jessica Hall, MC Faculty.

Kids on Campus: July 4th NEW

Welcome to our July 4th Kids on Campus Summer Camp! This three-day camp is designed to provide a fun, educational and age-appropriate experience, allowing you to celebrate in a safe and engaging environment. Activities may include both indoor and outdoor crafts, games, team building, magic, water play, tie-dyeing and more. Sign up with a friend, or make new friends! This camp is designed to create lasting memories and provide a safe, inclusive and educational environment. Participants should bring sunscreen, a non-perishable lunch, water bottle, and a sense of adventure. Come prepared to be active, get messy and have a lot of fun. Please note that space is limited, so sign up early to secure your place.

Course: YTH594
8 Hours

Rockville Campus
CID#: 15035
7/1-7/3
3 Sessions
8:30 a.m.-5 p.m.
Ages 6-12

GT = Gifted and Talented. See page 4 for details.
Learn to Build: Autonomous Robot *NEW*
Are you ready to be introduced to robotics? This camp is designed for beginner level robot enthusiasts. You will learn building electronic assembly skills while assembling an autonomous robot car from a kit. The robot cars use sensors such as photoresistors to interact with the environment. You will use a multimeter to check circuit connections for continuity and to troubleshoot and tune your autonomous robot. After the build is completed, design tracks for robot races in your own camp robot rally! At the end of the camp, take home your autonomous robot and multimeter! Basic soldering skills required (or enroll in Learn to Solder camp in the morning!).
Instructor: Dr. Monica Mellini, MC Faculty
Course: YTH609  15 Hours
$169 + $75 fee = $244; NMR add $25
Germantown Campus
CID#: 15042  5 Sessions  M T W R F
7/22-7/26  1-4 p.m.  Ages 10-12

Learn to Solder: Build a Radio
If you are interested in electrical projects, robotics, electronics, Arduinos, or just want to acquire a new skill, learn to solder! In this camp, you will learn and practice basic soldering skills, safety practices, care of equipment, reading schematics, and circuit testing, while building your own FM radio! You will gain a working knowledge of different types of electronic components that you will encounter in Arduino and robotics projects: resistors, capacitors, diodes, IC chips, potentiometers, LEDs, and learn how to identify these components and determine their polarity. At the end of the camp, take home your soldering kit and FM radio, complete with speaker and auto-tuner!
Instructor: Dr. Monica Mellini, MC Faculty
Course: YTH608  15 Hours
$169 + $70 fee = $239; NMR add $25
Germantown Campus
CID#: 15038  5 Sessions  M T W R F
7/22-7/26  9 a.m.-12 p.m.  Ages 10-12

Lego Coding and Robots
Coding using Lego Robotics Boost kit. You will learn linear coding using Legos. You will learn coding by building multiple robotic creations such as building humanoid robots, automated vehicles, creating art and music, and manufacturing robots. You learn the basics in coding building the Vernie robot build in groups, receiving challenges in coding movements and behaviors with each step. You then choose from 7 other designs to move forward in your building and programming challenges. In partnership with Goldsmith Education.
Course: YTH516  15 Hours
$159 + $50 fee = $209; NMR add $25
Germantown Campus
CID#: 14979  5 Sessions  M T W R F
7/29-8/2  1-4 p.m.  Ages 11-14

Attention High School Students!
Want to get a jump start on a class for next semester? Want to master Microsoft Word, Excel, or Access? OR want to learn to create your own website, learn more about digital photography, or power up for the SATs? Try taking an Ed2Go noncredit online class! There are hundreds of classes to choose from and you can take them at any time, any place!
For more information, visit www.montgomerycollege.edu/wdce/noncredit-online-courses.

Lego STEM Engineering and Robotics
Engineering technology is a great way to introduce a budding young scientific mind to the future of a high-technology world! In this class, you will work in teams and become technology experts. Instructors will reinforce concepts of force, measurement, construction, design and much more. You will be challenged to create unique machines using your knowledge of technology and design. Come learn how to do some amazing things with technology. In partnership with Goldsmith Education.
Course: YTH377  15 Hours
$159 + $50 fee = $209; NMR add $25
Rockville Campus
CID#: 15009  5 Sessions  M T W R F
7/8-7/12  1-4 p.m.  Ages 11-14
Leveling Up to Lead
Are you ready to achieve your goals and become the best version of yourself? Do you know what career path you plan to pursue? Would you like to be a better student leader? Come and learn how to develop life skills that will help you advance personally and professionally, including resume development and interviewing skills. Participate in activities that will explore your sense of self, your interests, your preferred style of leadership and possible career skills. In addition, you will explore how your chosen career benefits the community. Enjoy role playing, presentations, discussions, and good ole hands on fun! MCPS has approved this camp for 10 Student Service Learning (SSL) hours. Instructor: Cedric Price.

Course: YTH387 15 Hours
$159 + $30 fee = $189; NMR add $25

Musical Theater
Calling all musical theatre enthusiasts! Musical Theatre combines songs, spoken dialogue, acting and dance. Learn Broadway style dancing and music in this jazz-based musical theatre camp. Start with classic Luigi style jazz warmups with body isolations, stretch and alignment exercises. Learn some repertoire of Broadway musicals like Chicago, Chorus Line, West Side Story, Hamilton, and more. You will learn acting, vocal techniques, and stage movement, so come ready to dance and sing! Ms. Ingram is a life-long dancer and master instructor who encourages her dancers to understand the cultural context of their dance style to reach a higher quality of movement and to connect with the experiences that originated the dance technique they are bringing to life. Please dress appropriately for active dancing. No experience required.
Instructor: Angela Ingram, MC Faculty.

Photoshop-Building an Image
Are you curious about Photoshop and how it can enhance your photos? Are you ready to learn about post-production in photography? We all know that Photoshop can alter pictures, but most people don’t know how. They think you just press a button, and…Bam, Wow! Perfect! Well, it’s not that simple. Come learn about the many tools and techniques in Photoshop. In this camp, you will learn from a professional photographer with over 20 years of experience who uses Photoshop every day. You will learn the basics of setting up an image and the tools for retouching and constructing stunning photographs. Photoshop is not just a retouching program; it is an extension of your creative vision. For examples of post-production creativity, please visit the site from this instructor. **Just Announced!**

More camps to come! We will be offering **SPORTS CAMPS** this summer! MC Athletics will have a few weeks of sports camps, possibly including basketball, soccer and volleyball in July, 2024.

More information to come! Please visit our website often for up-to-date information.
Power Up Your Creativity
Ever feel stuck when you want to be creative? It happens to everyone, but there are simple tricks to get past it and keep it from happening again. Your creativity is essential in school and all life situations. Come learn and practice brain-based tools that dissolve mental blocks, take the stress out of writing, and put the mind into a creative state all day long. We’ll use fun and fast games, mindfulness practices, mental “stretching,” and more to train your brain. You’ll develop the opportunity to “turn on” your creative mind at will with these simple techniques. Instructor: Alice Langholt, Ph.D.

Psych: What It All Means
The taste of watermelon—the memory of your birthday—the wonder of optical illusions—the meaning of dreams—understanding this is all made possible through psychology. In this hand-on class, you will learn the regions of the brain and construct model brain and discover the functions of the five senses and test their functions. You will create optical illusions, understand the stages of sleep, and meaning of dreams. You will learn ways to improve your memory, and discover techniques to train people and pets. You will also discover how and why people act in certain situations and ways to improve your happiness. This is an introductory course for high school psychology. In addition to psychology concepts, we will look at skills to help students succeed in high school and AP Psychology. In addition, you will conduct a research project on mental health issues in our community, and create a poster to support awareness. MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. Instructor: Jennifer Bauer, MCPS Teacher
Course: YTH515 30 Hours
$328 + $50 fee = $378; NMR add $25

Really Big Gigantic and Teeny Tiny Art Camp NEW

It’s all about scale in this creative camp that will delight you as you create art that challenges dimensions—from enormous to miniature. Your ideas will flow as you make Cool Globes inspired by the Cool Globe Project that toured around the world. Come learn about Dale Chihuly, who creates masterpieces with glass and color. Make both a gigantic sculpture and small sculptures using recycled products. You will make murals and geometric sculptures, as well as play creativity games with music to help set the tone, and much more. We’re not a teeny, tiny bit shy about saying that this camp will be big, gigantic FUN! In partnership with Abrakadoodle, Crisscross Applesauce LLC.

Course: YTH633  15 Hours
$250 + $40 fee = $290; NMR add $25

Social Action Songwriting
One of the most powerful social statement methods throughout history has been through music. Become part of the movement and have your voice heard. Together, we’ll choose a cause we want to increase awareness about, discuss it through a process of civil conversation techniques, learn and apply a step-by-step process to create an original song about it, and then go out and perform that song in a public place as we amplify our message and exercise our first amendment rights in the process! Learn the step-by-step method of writing original songs, and let it help you express yourself any time. No experience required! MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. Instructor: Alice Langholt, Ph.D.

Course: YTH535 15 Hours
$159 + $30 fee = $189; NMR add $25

Germantown Campus
CID#: 14942 5 Sessions M T W R F

Solar Squad: Green Engineering Adventures NEW
Calling all curious minds to explore engineering design using green energy! Through hands-on design and build activities, experiments, and competitions, chart your green energy adventure by harnessing the power of sun, wind, and water. You will learn the fundamentals of electricity and build your own circuits, powered by renewable energy. Convert your electrical devices to run on solar, wind, or crank power! Team up with fellow campers to race your model electric cars.. At the end of the week, you will take your green engineering kit home to continue your exploration and show family and friends how to create a greener future. Instructor: Dr. Monica Mellini, MC Faculty

Course: YTH610 15 Hours
$169 + $75 fee = $244; NMR add $25

Germantown Campus

Summer SLAM
Do you want to achieve consistent success at school? Students learning to achieve more (Summer SLAM) is a class for middle and high school students who want to achieve consistent success at school. You will improve your college career awareness. You will learn healthy ways to deal with school stress with mindfulness techniques and what it means to truly have mental and emotional wellbeing. This course will teach you how to learn but will also provide coping mechanisms to deal with the pressures of academics. We know that school is stressful but there are study skills, habits, and techniques that can help you handle the stress in a healthy way. Many students earn decent grades, but may have been inconsistent in their performance. Summer SLAM is a hands-on study skills class that focuses on executive functioning, achievement motivation and college awareness. In addition, you will create a survival guide for your appropriate grade level (middle or high school) that can be shared with students in MCPS. The survival guide will include what students learned in the class to provide peer to peer advice on how to study, develop a growth mindset, and how to thrive in school. The Survival Guides will be published online and shared at the participants’ school to better their school community. MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. In partnership with Milner Education Consulting.

The Social Innovators Camp
Have you noticed a problem in your neighborhood or community you think you could solve? Do you have an idea of how to improve the quality of life for those in need, educate others about environmental issues, or simply bring joy to others? Work in teams to develop a plan to combat an existing (or potential) social/environmental issue or need in your community, all while earning Student Service Learning (SSL) hours. In this camp, you will learn how to utilize resources, gain and engage supporters, launch a public service campaign, and most importantly, how to make a positive and lasting impact in your society using your innovative mindset. At the end of the week, you will have all the tools you need to put your idea into action, and the opportunity to present your plans to local community leaders for feedback about your impact. MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. Instructors: Southern Management Leadership Program Scholars.

Traveling History: The American Presidents
There is no political office more powerful than the President of the United States. In this camp, you will have the opportunity to research your favorite President and understand their impact on the country. You will pick one topic from your President of choice and create a fact sheet and presentation, focusing on how you can use this idea to advocate for change in your community. On Tuesdays and Thursdays, you will travel to Washington DC via the metro to explore areas of the city influenced by the executive office. The field trip locations may include the White House and relevant portions of the Smithsonian American History Museum. Please note that the field trip locations may change based on COVID protocols.

MCPS has approved this camp session for 10 Student Service Learning (SSL) hours. In partnership with Milner Educational Consulting.

7/29-8/2 1-4 p.m. Ages 11-14

Writing for the SAT & ACT
Prepare for the writing section of the SAT and ACT. Analyze typical essay prompts and sample responses. Learn to support your opinions by using your own experiences and readings to accomplish the task of writing to a persuasive prompt. Using logical thinking, enhance your awareness of the structure of your arguments and avoid fallacies in reasoning. Practice writing the parts of an essay, composing entire essays, and revising and evaluating your own writing and that of your peers. Engage in group games and activities to heighten your knowledge and skill set of grammar and test taking skills. Increase your ability to write in timed situations. Add rhetorical strategies to your repertoire of writing skills and improve your understanding of Standard English usage through instruction, individual and group practice. Enhance your skill set for the multiple choice questions on both tests. In small groups break apart all types of multiple choice questions to arrive at effective methods for answering multiple choice questions. Practice skills learned and take practice tests to heighten your comfort with the testing situation. Instructor: Jennifer Bauer
Course: YTH106 30 Hours
$328 + $50 fee = $378; NMR add $25

Meet Our Amazing Partners!

**Abrakadoodle**, one of the most well-established art education companies of its kind, inspires kids to reach beyond and create art that is unique to them. Offering extensive art classes for children of all ages, the goal is to help students develop their technical skills, gain an appreciation of artistic expression, build confidence, individually and as a part of a group, and experience other academic subject matter from an artistic perspective using the full range of visual arts media. All lessons are scaled to the age level designated in each camp, and are progressively more challenging and nuanced in the concepts and techniques presented to reflect students’ abilities.

Stephanie Burke, Ed.S.—Abrakadoodle of Greater Silver Spring, MSSTB1Creations (Takoma Park/Silver Spring) and Nancy Delasos—Abrakadoodle of Montgomery County, Crisscross Applesauce (Germantown and Rockville)

**The magic in you will come to life as never before when you are empowered to be as creative as you were born to be. The magic in every student comes to life as never before when they are empowered to be as creative as they were all born to be!**

Black Rocket has twenty years of experience designing courses in the S.T.E.A.M fields. Every program is powered by the child's innate imagination and designed to bring their ideas to life in a fun, hands-on learning environment. All Black Rocket programs mirror real life experiences and the collaborative nature of the design process. Students will work in pairs or teams for in-room programs in a COVID safe way. Online classes provide a more independent experience, but with an emphasis on peer-to-peer feedback to enhance the creative process.

**Goldsmith Education LLC** provides technology education to elementary through high school students in interesting, fun and exciting ways. Students learn science, mathematics and engineering concepts in a thought provoking, safe and varied educational environment with exposure to a multitude of age-appropriate learning tools, programming (coding) languages and specially designed physical kits. Our program starts by giving students base knowledge in technology starting with the very basic machines to compound builds growing toward opened ended building and programming opportunities. Our idea of technology education is that students need to be grounded in physical construction in order to truly understand how to create a program to manipulate the world around them.

With 22 years of experience offering group classes, camps and private lessons throughout the DC metro area, Learn Now Music (LNM) is the area’s leading music education programmer! LNM provides students everything they need from professional instruction, instrument rentals, music and more! Contact us today for more info! www.LearnNowMusic.com 800-399-6414 CustomerService@learnnowmusic.com https://www.youtube.com/watch?v=uOe2AIIMRJ-g

**Don Milner** returns with his very popular classes full of helpful hints and strategies to be a success in middle school and/or high school. Don Milner is a 24-year veteran Teacher with extensive leadership experience as a Team Leader, Content Specialist, and Consulting Teacher. He has helped hundreds of students learn how to succeed in the Study Skills 101 and Summer S.L.A.M. Each class includes an optional parent’s session for free. Summer S.L.A.M. Participants can earn 10 Student Service-Learning Hours and will participate in two College Tours. His program has been awarded the Nancy Dworkin Award for Outstanding Service to Youth in Montgomery County.

General Registration Information

Registering Your Student

Youth Programs registration is online only.
1. https://montgomerycollege.augusoft.net/
2. Select your class and "ADD to CART"
3. You will be prompted to “Sign In” or "Create a New Profile."
4. Returning Students (from Summer 2021) Sign In. Prompts are available if you forgot the user name or password.
5. New Students. View the video for How to Create a New Student Profile.
6. Create a student profile for EACH student.
7. Use child’s name for the profile
8. Other information (email, phone, and credit card) should be the parent/guardian. We use this information to contact you throughout the process and program.
9. Check Out

CampDocs (Mandatory)

Montgomery College Youth Programs uses Camp Docs to maintain all the emergency information, health information, and other camp related forms. This is where you will also find permission forms, handbooks and maps of the campus. It is our hope that this will streamline the paperwork required for your child. A few days after registration, you will receive an e-mail from campdocs.com with instructions on how to enter this information into the system. You will only enter this information once per child. All information is required before your child can attend online or in-person camp.

Residency Policy

The following are general guidelines taken from the College policy on residency for tuition purposes. A complete copy of the policy is available in the Montgomery College Catalog.

- Students attending Montgomery College will pay tuition according to their residency.
- To qualify as a resident of the state of Maryland for tuition purposes, legal domicile must have been maintained for a period not less than three months prior to the first regularly scheduled class.
- Non-Maryland residents (NMR) pay Out-of-State Fees. (Non-U.S. Citizens: attach a copy of your passport, visa, or permanent resident card.) Non-Maryland residents and Non-U.S. Citizens without a passport, visa, or permanent resident card must pay a $25.00 per course out-of-state fee for youth offerings.

Cancellation Policy

Courses may be cancelled due to under-enrollment at least five (5) business days prior to the start of course or program. Students will be notified of cancellation by e-mail and a refund will be processed for the total cost of course(s). Refunds will take approximately three (3) weeks to be processed.

Class Change and / Or Refund Policy: Youth Programs Only

Refund Policy

- Withdrawal from class up to and including 21 days prior to the start of the class—Full Refund.
- Withdrawal from a class less than 21 days prior to the class—No Refund.
- If a class is administratively cancelled, you will receive a full refund.
- In order to receive a full refund, you must submit your request by the following dates:
- There are no refunds for scholarship students who do not attend if they have not notified us at least two (2) weeks in advance of the specific camp for which the scholarship has been awarded.

Class Change Policy

Please contact the YouthProgramsDirector@montgomerycollege.edu with details of your request. Youth Programs must have the request in writing.

If a change in registration is approved

1. Customer Service will drop you from the first class and process a refund for this class.
   The refund should appear on your credit card statement in 2-5 business days.

2. Customer Service will register you for the alternate class and email you a payment request.
   Please login to your child’s account and submit the payment within 48 hours. To submit the payment, please go to My Transaction then click on Pay Now and make a payment with your credit card.
Communication

Youth Programs uses the e-mail address that you entered when registering to communicate with the families of registered students about specific program information. Please be sure your e-mail address is current and that you check it regularly. Until you know that you can receive our e-mail notifications, also check your SPAM folder. Parents without an e-mail address will receive information by phone and/or mail.

Disability Support Services

Montgomery College Youth Programs is committed to providing accessible education and a supportive learning environment for all students. To help us meet this goal, the college offers support through the Disability Support Services Office. Parents submit pertinent information via campdocs.com. After completing the appropriate information on campdocs.com, parents are to contact counselor Natalie Martinez at Natalie.martinez@montgomerycollege.edu or 240-567-4118 at least two weeks before the start of the program to arrange for reasonable accommodations. MC does not provide medical assistants or care attendants. Campers must exhibit independence and ability for self care. Parents are not permitted to attend camp with their child.

Health Service

Montgomery College instructors and staff cannot administer any medication, prescription or non-prescription (over-the-counter), to students. If a student needs to take medication during the program, you need to have the Medication Administration Authorization Form completed by your child’s physician. A separate form must be completed for each medication, prescription, or over-the-counter drug.

Prescription medications must be in the original containers bearing a pharmacy label that shows the (a) Prescription number, (b) Date filled, (c) Authorized prescriber’s name, (d) Name of the medication, (e) Directions for use, and (f) Patient’s name. Non-prescription medications must be in the original containers and include the directions for use.

All medications, except emergency medications like Epi-pens or inhalers, must be collected by the program staff, kept in a secured, locked storage compartment, and stored under the conditions specified by the manufacturer of the medication. Students may only carry emergency medications, like Epi-pens and inhalers, while attending their classes.

A student who is self-administering medication will be supervised by a staff member who will ensure the directions provided are followed. The staff member will also be informed of the side and/or toxic effects of the medication. The Youth Programs’ Registered Nurse will contact the parents of any student with allergies or health issues to discuss concerns and develop an action plan for faculty and staff use

Transportation

Students and their parents or guardians are responsible for all transportation arrangement to and from campus. Public transportation is available. Call Montgomery County Transit Information at 301-217-RIDE.

Drop-off and Pick-up Procedures

Unless alternate arrangements have been made in advance with the Youth Programs Office, drop-off and pick up your student at the assigned classroom. Students should be dropped off at their assigned classroom no earlier than 15 minutes before the start time. Students must be signed in and out of class by an adult unless prior arrangements are made in advance with the Youth Programs Office. Your request will be reviewed and you will be advised how to proceed.

*Parents/guardians can authorize students entering 6th grade or older to sign themselves in and out. Parents/Guardians must do this in campdocs.

Late Pick-Up Policy: Because of the large, public, open environments of our program sites, and our concern for student safety, we require that parents accompany students to the classroom or designated area when dropping off the student. Parents/guardians are asked to sign the student out in person at the end of the camp day, and will be asked prior to the start of camp to identify those persons who have approval to pick up the student from the program. In order to avoid late charges, please arrive to pick up your student at least 10 minutes prior to the end of their day.

Parents should arrange to pick up their student promptly at the end of their class. There is no supervision before 8:45 a.m. or after a student’s day ends unless he/she is registered in the Before and/or After Care program. It is our policy to keep a record of late pick-ups for each student for the week. Each family will be charged a late pick-up fee of $25 for every 15 minutes or part thereof. Repeated late pick-ups may jeopardize the student’s enrollment in the program. All parents or authorized persons will sign a late pick-up slip at the time of pick-up. The college’s clock will be used to determine the time. Payment is due within two days of the late pick-up and can be paid at a customer service or cashier office. The student will not be allowed to continue in the program if proof of payment of the late charge(s) is not presented by the second day of the late charge assessment. In the event that the student does not return, the parent will be billed for any late fees not paid. Please note that the late fee is assessed for each student picked up late.

Supervised Lunch

Students should bring a lunch, drink or water bottle, and/or snacks. For most programs the lunch session runs from 12–1 p.m. Students attending either full-day programs or both morning and afternoon half-day programs will receive supervision during lunch at no additional cost. Students are escorted from their morning classroom to lunch, supervised during lunch, and then escorted to their afternoon class.

Students attending only half-day programs are not eligible for lunch supervision. NOTE: There is no lunch supervision for students in only a one half-day camp. The College cafeteria is
typically available and vending machines are located in various campus buildings. **The College cannot provide an environment free of foods containing nuts.**

**Behavior**

All students, regardless of disability/challenge (e.g. physical, learning, psychological, emotional, behavioral, etc.) or medical condition, must abide by the rules and regulations of the Montgomery College Code of Conduct (see terms and conditions), including exhibiting classroom behavior that allows for a student environment free from harassment, discrimination, and disruption. We understand that some students require additional assistance to meet that standard, and we will determine if reasonable accommodations can be provided that will allow for the successful delivery of instruction to all students in the class. (Check the appropriate question on the registration form and you will be contacted in advance of the class/program or contact us directly.) Behavior contrary to the College’s Code of Conduct cannot
